Mineral production is up in the parish

-CAPITAL NEWS-

Cameron Parish opened 2001 with higher natural resource production than it recorded in either the previous month or in January 2000, according to Department of Revenue figures.

The January report from the department's Severance Tax Division listed \$1.5 million in severance taxes received for work within the parish boundaries, ranking the parish seventh for the month. The December 2000 report showed \$1.47 million collected for natural resource production. Both totals show some improvement over the \$1.42 million with which the parish began 2000.

Oil production provided the largest portion of the current month's receipts, bringing in \$1.1 million toward the total to make it one of only 10 parishes exceeding \$1 million in oil receipts. The remaining \$412,000 was recorded for natural gas production in the parish.

The parish collecting the tax on production of natural resources, except lignite and

timber, annually receives 20 percent of the total up to \$750,000. Seventy-five percent of all revenue collected on timber goes back to the parish.

Plaquemines Parish was, as usual, the leader in overall severance taxes, recording \$8.9 million in the January report. Terrebonne showed \$4.3 million as its nearest competitor, followed by Vermilion with \$3.3 million. Iberia's \$2.1 million placed it fourth for the month. St. Mary reported \$1.7 million to lead Lafourche by just \$157,000. Cameron's \$1.5 million was seventh highest for the month as Vernon reported an unusually high \$1.3 million.

Cameron Pilot, April 25, 1968 FIRE DESTROYS STEED'S ICE PLANT

Fire of an undetermined origin on Friday destroyed Steed's Ice Plant on the waterfront, causing an estimated \$200,000 damage to the building, equipment and machinery.

Cameron volunteer fire fighters, directed by Chief Ray Burleigh, were still pouring streams of water into the skeleton of pipes and ice-making machinery at 7 p.m., five hours after the blaze was discovered.

Jet Henry, one of two men engaged in electrical work in installing a \$35,000 addition to the ice-making facilities, said Wendell Murphy walked outside and saw the fire by the steps and hollered at him.

Henry said it appeared as if the fire began under a platform on the east side of the cement-block structure.

"It was a small fire but by the time I got outside the whole loading dock was ablaze, just like a gasoline blaze."

The quickness of the fire's spread could be traced to the huge piling foundations and heavy floor beams, all of which were creosoted, Chief Burleigh said.

Tom Steed, manager of the

plant, which is owned by the Steed family, was leaving his home after lunch when he heard the fire siren sound.

It was Cameron Parish's eighth major fire within the last 12 months. Creole volunteer fire fighters and the Coast Guard also aided in the fight.

Nine hose lines were employed in the fire fight, the chief said. Creole volunteers were led by Chief T. P. Bonsall.

The Steed Ice Plant recovered once before from disaster, when Hurricane Audrey struck in 1957, and the interior of the plant which was fully automatic had about 10 feet of water in it, Steed said.

THIS WEEK

By Jerry Wise

Congressman Edwin Edwards was a featured speaker at the annual convention of the Louisiana Press Association in New Orleans last weekend and confirmed something which you probably read in the Pilot—that he will be a candidate for governor in 1971.

Most of the local politicians we have talked to seem to think he would be a strong contender for the governor's position. However, Lt. Gov. Taddy Aycock has been patiently awaiting his turn for the governorship and "Big Bill" Dodd, no doubt, still years for the big job. And to whom McKeithen would give his blessing is anybody's guess.

CAUSEWAY COMPLETELY OUT AFTER COLLISION

Less than two weeks after two drifting barges caused an estimated \$100,000 damage to the Sabine Lake Causeway, the causeway connecting Cameron Parish and Jefferson County was struck again last Sunday by two barges loaded with shell causing even more damage.

The causeway, which had been opened to light traffic following the first collision, was reported to be completely knocked out by the second run-on.

Several cars from the Johnson Bayou area were trapped on the Texas side by the mishap and may have to be taken off by barge since the Pleasure Pier bridge at Port Arthur is out too after having been knocked out of operation last October.

With no revenues coming in from the tolls on the causeway, Cameron Parish and Jefferson County may in the future find themselves pressed to meet the payments on the causeway bonds.

RED SNAPPER OPENS

April 21 finally got here, that was Red Snapper day, however lots of anglers got fooled. Strong Southeast winds had seas rough and lots of small boats just couldn't go out. I did take two Lafayette anglers who went out, in a large boat and they did have two limits of Red Snapper but he told me it was a rough trip. The largest Snapper was about 7 to 8 pounds. Remember four is the daily limit and they have to be 16 inches in length or longer.

The Big Lake fishing is also feeling the pain as rough waters are cutting their trips short. Anglers fishing early in the morning while the winds are not as strong, are catching a few small speckle trout and redbass. The larger redbass are still at the Cameron Jetties, but again, be careful, as it's rough in the Jetties. Anglers are fishing on the west side of the Jetties where water is calmer. Many are fishing the piers and doing well.

FRESHWATER FISHING

Freshwater fishing is good early in the morning until about 9:30 a.m. and then you fight the winds. I made two good trips this past week as well as my son Rudy. He made two trips to the Big Burns and had good bass up to 3 1/2 pounds. I

made one trip to the Big Burns and had 9 good bass, largest about 2 1/2 pounds, but fishing Amoco I had 7 bass with the largest going a little over 4 pounds and lost a bigger one.

Anglers fishing the Big Burns are not doing very well fishing the big canals for white perch and bream.

Water in the Big Burn has dropped about six inches.

FAMILY OUTING

The Kenneth Montie family, along with their children and grandchildren made a trip to Caney Lake and caught really nice bass. Kenneth has a party barge.

LEMESCHE BASS CLUB

The Lemesche Bass Club will hold their second tournament of the year, Sunday, April 29 at Amoco. This is a pick your partner tournament. Everyone will meet at the Superior Bridge Landing and leave at sunrise, which will be at 6:35 a.m. Weigh-in will be at 3 p.m.

DATES TO REMEMBER

April 21 thru Oct. 31 - Red Snapper season opened. Daily limit of 4, 16 inches long or longer.

April 29 - Lemesche Bass Club tournament - Amoco 6:35 a.m. with weigh-in at 3 p.m.

April 30 - Close of oyster tonging season Calcasieu Lake.

Area afternoon dog fights have begun. Call Ron Castille at 477-5260 or 800-234-5210 for more info. Also turkey seasons in all area are closed, as well as frog season until June.

Child Abuse Prevention Month being observed

April is designated as Child Abuse Prevention Month. The Cameron Community Action Agency and the Cameron Council on Aging join hands with La. Children's Trust Fund in promoting programs designed to prevent child abuse and neglect throughout Cameron Parish.

Programs are aimed at positively influencing families, parents/caregivers and children.

*Child abuse can be fatal.

*Child abuse costs continue to multiply over time.

*Child abuse victims often repeat the violent acts.

*Treatment services, while critical, are ineffective in permanently altering parental behaviors.

*Prevention programs targeted at parents before they become abusive or neglectful reduces the likelihood for future maltreatment.

*Prevention programs improve children's awareness.

*Child abuse prevention efforts serve as a way to combat other social problems.

*Child abuse prevention creates a more compassionate society.
