4-wheelers to be topic at meeting

The Cameron Parish Beachfront Development District 1 board will hold a meeting at 6:30 p.m., Thursday, May 22 at the Johnson Bayou Community Center, according to John Poole, chairman.

District residents, camp owners and other interested persons are invited to attend to discuss proposed regulations governing the use of four wheelers on the beaches. Some beaches have been put off limits to four wheelers including sections of the newly restored beach between Holly Beach and Constance Beach.

Concerns were expressed at the May Police Jury meeting about the sand dunes on some of the beaches being destroyed by four wheelers.

For more information on the meeting call Mr. Poole at 762-4466.

New business is opened here

Tips, Toes and Tanning, a tanning and nail salon, located at 1301 Marshall St., Cameron, has announced their Grand Opening is now in progress.

In addition to specials on services and products there will be a registration for door prizes to include one free week of tanning time.

The salon is owned by Carla Mallett. Hours are 10 a.m. - 5 p.m., Mon. - Fri. or late appointments available upon request. The phone number is 912-3087.

THE CAMERON PARISH Police Jury recently erected signs at Martin Beach warning 4-wheelers not to operate in the area so as to protect the sand dunes shown in the background. Some 4-wheeler operators apparently haven't seen the signs as is shown in the lower photo. (Photos by Cyndi Sellers.)

Cameron Parish students rank high in state testing

By CYNDI SELLERS

Test results and repairs occupied most of the Cameron Parish School Board's monthly meeting, May 12.

Responding to a report on parish second graders' Iowa Tests of Basic Skills scores, Supt. Doug Chance said "Our little people have done an awesome job," in scoring above the national average in 44 of 49 categories.

The test, which is not required by the state, was given to help teachers pinpoint areas to focus on for improvement, according to Nancy Boudreaux.

Parish students as a whole ranked 11th in the state in the District Performance Score (DPS) for 2002, scoring 16.2 percentage points above the state average. The DPS covers K-12 standardized test scores parishwide.

Preliminary test results for 2003 are showing a marked improvement in the number of remedial retest students, according to Stephanie Rodrigue, Supervisor of Curriculum and Instruction. For example: one category, Grade 4 Mathematics, dropped from 30 to 13 retests. Rodrigue explained these results were especially gratifying because they include special ed and homebound students, some students who enrolled the

week of testing, and students who have since left the parish.

CONTRACTS AWARDED

Summer projects for repairs and improvements throughout the parish were approved. Bids were awarded to:

Taylor Floors - \$24,952, replace flooring at SCHS, CES, and Johnson Bayou School.

Morgan Roofing - \$17,700, repair field house and storage building roofs at SCHS.

Service Glass - \$21,611, construct walkways at Grand Lake School. \$2551, construct canopy and repair metal building at School Board

Office.

M & M Metal - \$60,994, repair roofs and siding at Hackberry and JBS.

Hercules Fence - \$7,100, fence work at SCHS and SCES.

Lake Charles Painting - \$16,436, painting at SCHS and SCES.

Mire Painting - \$2,080, painting at JBS.

District 7 School Board Member Rachel Abadie reported that oozing tar from a parking lot repair at Grand Lake School was ruining clothing, bookbags, and carpets. Dr. Chance responded he was aware of the situation

Opinions on uniforms to be sought

Parents of Cameron Parish school children soon will be given the opportunity to say if they want to continue mandatory school uniforms or not.

Uniforms will be required for the upcoming 2003-2004 school year but the following year the policy could change if enough parents indicate this as their wishes.

Stephanie Rodrigue, supervisor, told the School Board Monday that the pre-

sent uniform policy was a parishwide initiative of parents and not the School Board.

She said it was time to permit all parents to express their views on school uniforms to make sure the majority were in favor.

Cameron parish students will wear the uniforms during the 2003-2004 school year. A decision on the 2004-2005 year will be made during the coming school year.

Local youths winners in state meet

A group of 6, 7 and 8th graders from Cameron Creole and Grand Chenier, members of the Scholastic Clay Target Program, participated in the Louisiana Amateur Trapshooters Association state tournament at the Cajun Elite Gun Club in Evangeline on May 2 and 3.

The local group, shooting under the name of Cajun Clay Crackers, were divided into two squads of five boys each. Shooting as a team, Team A won the State Championship with a team score of 839 out of 1000.

Team members Jordan Richard and Tony Boy Johnson recorded their first 25 straight targets and scored a 94 out of 100 to win the individual titles. Jordan was State Sub-Junior Preliminary Champion and La. State Sub-Junior Champion. Tony Boy was runner-up in each category.

Team members besides Richard and Johnson are Daniel Dupre, Jonathan Trahan, Jacob Trahan, Jordan Rutherford, Dylan Conner, Justin Trahan, Lancey Richard, Barrett Hebert and Jade Miller.

Adult coaches and instructors are Bill Morris, David Trahan, Tony Johnson and Wade Carroll.

SEVERAL LOWER Cameron Parish youths participated in the Louisiana Amateur Trapshooters state tournament in Evangeline on May 2 and 3. Lake Charles American Press, May 11, 1940.

MOTHERS HONORED BY DAUGHTERS

The home economics girls and Miss Edith Chatterton of the Grand Lake High School were hostesses at a reception in honor of their mothers Thursday.

Guests were Mesdames Ova Granger, Tan Demarest, Antoine Demarest, Clopha Miller, Arthur Hebert, Marion Marcantel, Sampson Granger, U. E. Hackett and Sonny, W. J. Montie and Bobby, Mitchel Montie, Alcea Hebert, B. C. in the Cameron and Creole areas.

Major structure measures plan consist of 19 miles of single purpose levee for flood prevention, 35 miles of multiple-purpose channel improvement and multiple-purpose water control structure for flood prevention and agricultural water management.

The Soil Conservation Service, under Public Law 566, is to bear approximately three-fourths of the estimated \$2 million cost of installing the project.

Sponsors of the watershed project are Cameron Parish Gravity Drainage Districts Nos. 3 and 4, the Cameron Parish Police Jury, and the Gulf Coast Soil and Water Conservation District.

CATTLE DRIVE

A little bit of the old West will come to Cameron Parish again Monday when cattlemen of the Creole-Oak Grove area hold their big semi-annual cattle drive with more than a thousand head expected to be in the herd.

A cattlemen will be driving their cattle from the winter range at Johnson Bayou to their summer range around Creole.

Most of the drive will be along the beach. The most spectacular phase of the drive is when the cattle swim across the ship channel south of the ferry crossing at Cameron. The cattle swim the quarter-mile channel with ease.

The drive has been made for many years and is one of the last big cattle drives in Louisiana and the nation.

FERRY REPAIR POSTPONED

The State Highway Department recently announced that the 50-car ferry at Cameron would be out of operation for several weeks while it went into dry dock for repairs and painting. Scheduled to replace it temporarily is a 6-car ferry.

Police Juror Butch Crain fired off a letter to the highway department pointing out that this was a poor time to be replacing the Cameron ferry with such a small ferry. The tourist season is in progress, and the storm season is beginning.

Rep. Conway LeBleu reported Tuesday that the highway department has agreed to delay the dry docking of the ferry until slower season.

CANDIDATE FOR SHERIFF

mother is Aline Broussard Constance. He is 54 years old and was raised in Johnson Bayou. He graduated from Hackberry High School in 1966 and is a member of St. Peter's Catholic Church in Hackberry.

Mr. Constance joined the U. S. Air Force in 1966 and served in the Vietnam War from 1967 to 1968. He married Gwen Sanner in 1967 and they have three sons, Paul, Tim and Tony and four granddaughters. He served 9 years on active duty in the Air Force and 15 years as a reservist.

Upon returning to Hackberry he raised cattle and operated a small construction company until 1981, when he went to work for the Cameron Parish Sheriff's Department as a deputy. During more than 21 years

with the Sheriff's Department, he served as a jailer/dispatcher/investigator with four years as Chief Criminal Investigator. He retired from the Sheriff's Department recently.

Mr. Constance has completed numerous management/technical/instructional schools with over 4,000 hours of schooling. He was a U. S. Air Force Instructor in Computer Operations and Maintenance. He was the Firearms Instructor for the Cameron Parish Sheriff's Office for over 20 years. His last assignment in the Reserves was 3 years as NCOIC of Law Enforcement and Security Operations at Keesler Air Force Base in Biloxi, Miss.

Mr. Constance was the lead investigator in two homicides - one was the homicide in Hackberry in 1997 and the other was "The Torso Homicide Case" that happened in Texas in 1992 and the body was dumped in the marsh in Little Chenier. Both perpetrators are serving life in the penitentiary.

He was one of the lead investigators along with the Federal/State Investigators in the February, 1988 Choupique Bayou drug smuggling case in which more than seven tons of marijuana was seized.

He was the lead investigator in a missing elderly person case from Pearl, Miss. in which a body was found on Rutherford Beach. The killer was arrested by Mr. Constance and two deputies before Mississippi authorities knew they had a murder. The man is serving life in the penitentiary.

CAMERON OUTDOORS

Strong winds slow fishing

By Loston McEvers

TROUT DOGFIGHTS BEGIN
We've seen another week of strong winds. When will it let up? This has really affected fishing, especially in the Big Lake area. Very few boats are fishing the lake because of high winds, rough waters and really it's hard to stay on a reef, even with the boat anchored. The marshes along the weirs have been good for redfish.

I've talked to a few off-shore anglers and some tell me it's rough to even fish the Jetties. Not many are taking the chance of going off-shore for red snappers, even in the larger boats, as it's so rough, it's hard to even stand up, much less try to fish.

The freshwater fishing has been fair on bass. Again the strong winds make it hard to try and fish the marsh pond. Fishing the big canals in the Big Burn has paid off for white perch, bream and nice size goggle-eye. Tony Johnson and his son "Tony Boy" had done well on white perch and goggle-eye. Many are using

beatle spins, but taking off the spinner works well, jogging it along the canal banks, as well as small tube jigs on a small 1/16 or 1/8 jighead.

SPECK DOGFIGHTS
Beginning May 20, the Tuesday afternoon speck dogfights will begin on Big Lake to be held out of Hebert's Marina. You have to be registered by 4:50 p.m., registration begins at 4 p.m. Blast off will be at 5 p.m. and ends just after dark. Each team may weigh-in dead fish, but all fish brought to the scales in plastic bags filled with water, will be released right after they are weighed. The dogfight will run through July 22.

LEMESCHE BASS CLUB
These are the partners drawn for the May 18, Sunday club tournament to be fished out of Amoco waters. Chance Doxey and George Melancon; Carl Broussard and Rod Richard; Jeb

Linscombe and Rufus McEvers; Darren Richard and Johnny LeDoux; Corey Broussard and Todd Morales; Loston McEvers and Sethie Trosclair; Tom Hess and Jim Boudreaux; Tony Conner and Ricky Canik; and Shane Suratt was odd man.

GIBBSTOWN DOGFIGHTS
The Gibbstown dogfight on Monday, May 5 saw again small bass. The top stringer with 3 bass weighed a little over 5 pounds went to Darren Richard and Todd Conner with the largest bass weighing 2 pounds. Second place was Richard Duhon and Rod Richard and third was Darren Thibodeaux and Todd Morales.

OUTDOOR ACTIVITIES
This is the time of the year here in Southwest Louisiana we have lots of outdoor activities going on. From back yard barbecues, fish fries, or fishing, crabbing, gardening and 4 wheeler or boat riding. We need to protect ourselves as mosquitoes are here and we all know the West Nile virus is here also. Last year 319 people contacted the virus, with 18 deaths.

Some of the things they tell us we should do is: wear long pants, long sleeve shirts, no perfume or colognes and use mosquito repellent with DEETS. We are also at this time seeing lots of green head flies and plenty of deer flies. I like to use skin-so-soft by Avon for deer flies.

SHRIMPERS
December 6, 2003 control dates will be established for the Commercial Shrimp Fishery of the Gulf of Mexico. The Gulf of Mexico Fishery Management Council has requested that the National Marine Fisheries Service set a control date of Dec. 6, 2003 for shrimp vessel permits in federal waters. If the control date is set, anyone who did not have a permit before that date, may not be eligible for one after that date, and may not be eligible to stay in the fishery if a limited entry program is put into place.

Arrests up for drug activities

By CYNDI SELLERS

Summer has come early this year. At least that's how it seems to Cameron Parish deputies who report a marked increase in arrests which began in mid-April.

Chief Deputy Theos Duhon reports an increase in drug arrests in the last few weeks, including controlled dangerous substances (CDS), and marijuana. DWI's have also increased. The week of April 20-26 saw eight drug arrests.

Recent weekends showed 13 arrests April 19-20, 11 arrests April 26-27, 8 arrests May 3-4, and 18 arrests May 10-11. Much of the activity occurs around the beach areas.

Duhon says the summer always brings an increase in drugs and DWI's due to weather, travelers, and relaxation. However, he said the jump has started early this year and the big weekends of graduations and Memorial Day are yet to come but the Sheriff's Office is prepared to deal with the situation as it develops.

MRS. JONES' first grade classes at Cameron Elementary School went on the Aquarium in Houston, Texas on Friday, May 2. Standing, from back to front, are: Tiffany Wilson, Dylan Daigle, India Mayne, Kimberly Adkins, Brianna Fountain, William Whitman, Joseph Burroughs, Darian Picou, and Morgan Hardie. Seated are: D'Artanya Coulombe, Kylie Davidson, Christina Mason, Trey Fountain, Alyssa McGee, and Jeffrey Racca.

Deputy Cox and other fallen officers honored

By CYNDI SELLERS

This week, May 11-17, is Concerns of Police Survivors (C.O.P.S.) Week. In memory of fallen officers and in support of their families, special C.O.P.S. blue ribbons have been tied on the antennas of

law enforcement units across the nation, including Cameron Parish.

The Cameron Sheriff's Office is flying a special "In Memorandum" flag this week to honor all fallen officers and their families, especially Deputy Terry Lynn Cox, who was killed in action Dec. 30, 1999, and his family.

Ribbons are available at the Sheriff's Office for anyone who would like to join this effort.

The Water We Drink
Cameron Parish Water Works
District #10
Public Water Supply Id 1023005

We're pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality of water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water source is well water from (2) two wells.

We will have a source water protection plan available at our office, located at 159 Berwick Road in Johnson Bayou, that provides more information, such as potential sources of contamination to the water supply. This assessment includes a delineated area around our wells (or intakes) through which contaminants, if present, could migrate and reach our source water. It also includes an inventory of potential sources of contamination within the delineated area, and a determination of the water supply's susceptibility to contamination by the identified potential sources.

We are pleased to report that our drinking water is safe and meets federal and state requirements. If you have any questions about this report or concerning your water utility, please contact Gary Badon, Mark Young, or Rhonda Morrison at (337) 569-2110. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are generally held on the 2nd Tuesday of each month. You can call at the number above for a specific place, date and time.

The Louisiana Dept. of Health/Office of Public Health routinely monitors for constituents in your drinking water, according to Federal and State laws. This table shows the results of our monitoring for the period of January 1st to December 31st, 2002. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not necessarily pose a health risk.

In this table you will find many terms and abbreviations you might not be familiar with. (Non-Applicable to Waterworks District #10) To help you better understand these terms we've provided the following definitions:

Non-Detects (ND)-laboratory analysis indicates that the constituent is not present.
Parts per million (ppm) or Milligrams per liter (mg/l)-one part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Picograms per liter (picograms/l) - one part per quadrillion corresponds to one minute in 2,000,000,000 years or one penny in \$10,000,000,000.

Picocuries per liter (pCi/L) - picocuries per liter is a measure of the radioactivity in water.

Millirems per year (mrem/yr) - measure of radiation absorbed by the body.

Million Fibers per Liter (MFL) - million fibers per liter is a measure of the presence of asbestos fibers that are no longer than 10 microm-

eters.
Nephelometric Turbidity Unit (NTU) - nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

Variations & Exemptions (V&E) - State or EPA permission not to meet an MCL or a treatment technique under certain conditions.

Action Level - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Treatment Technique (TT) - (mandatory language) A treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

Maximum Contaminant Level - (mandatory language) The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal - (mandatory language) The "Goal" (MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

During the period covered by this report we had no violations of drinking water regulations. We also did not detect the presence of any regulated compounds in our source water. The last chemical sampling of our source water was collected on 08/13/01. Additionally, the latest consumer tap sampling from 2001 for lead and copper showed no levels.

Thank you for allowing us to continue providing your family with clean, quality water this year. In order to maintain a safe and dependable water supply, we sometimes need to make improvements that will benefit all of our customers.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Please call our office if you have any questions.

We, at Cameron Parish Waterworks District #10, work around the clock to provide top quality water to every tap as stated by (337-569-2110). We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

RESOLUTION
STATE OF LOUISIANA
PARISH OF CAMERON

WHEREAS, House Bill 1308 and Senate Bill 859 of the regular 2003 Legislative Session will allow the Louisiana Department of Environmental Quality to be an indispensable party in any litigation or action for damages or for restoration or remediation of groundwater resources; and

WHEREAS, any settlement or judicial award for groundwater resource damages shall be paid in increments to the Louisiana Department of Environmental Quality, which would leave the landowner out of the settlement; and

WHEREAS, both of these bills would go into law retroactively.

NOW, THEREFORE BE IT RESOLVED that the Cameron Parish Police Jury is in opposition of House Bill 1308 and Senate Bill 859 of the Regular 2003 Legislative Session; and

BE IT FURTHER RESOLVED that the Secretary of this body is hereby authorized, empowered and directed to send this resolution to the Louisiana State Legislature and Governor Mike Foster.
