

## Ferry gets favorable report in committee

By JIM BEAM

(Lake Charles American Press)

Continued operation of the Monkey Island Ferry at Cameron got a favorable report in Baton Rouge Tuesday from the House Appropriations Committee. The last hurdle is approval on the House floor.

Sen. Jerry Theunissen, R-Jennings, and Rep. Dan Flavin, are sponsoring the Monkey Island legislation.

The bill gives the ferry new life until 2005 and is designed to keep the ferry operating until a bridge can be built. Theunissen said the cost of operating the ferry for two years is about \$450,000.

Tina Horn, Cameron Parish administrator, and Charles Precht, president of the Cameron Parish Police Jury, were at the committee meeting in support of keeping the Monkey Island Ferry operating.

Theunissen and Flavin explained that Monkey Island was created when the Calcasieu River was dredged to straighten the Calcasieu ship channel. They said the island contained about 1,000 acres.

Horn earlier told a Senate committee that seven families are served by the ferry, and it is their only way to get to their homes. She said the West Cameron Port Authority also has property on the

island that is ready for economic development.

Kam Movassaghi, secretary of the State Department of Transportation and Development, earlier said his department supports keeping the ferry operating. He said there have been some clearance problems holding up the bridge construction, but he thinks they will be resolved in a couple of years.

## Tien Le Local girl wins state art contest

Tien Le, Cameron Elementary School student, was one of 24 students across Louisiana who have been named as winners in the First Art and Language Art Contest. She won in Ages 5-9 category. Mrs. Alice Foster, the governor's wife, presented the awards to winners in attendance at 10 a.m. Thursday, June 5 at the Governor's Mansion.

The contest, open to all Louisiana children between the ages of 5 to 18, attracted almost 1000 entries, and awards ranging from \$75-250 were given.

The Governor's Environmental Education Commission received a donation from Alcoa to sponsor the statewide environmental contest and encourage environmental stewardship. The theme for this first contest was "Louisiana, The Water State." Several winning submissions will be featured on billboards throughout the state.

Tien Le is the daughter of Canh and Thuy Le.

## Dr. Ransom Howard, NAACP V.P. dies Thurs.

Dr. Ransom Howard, 66, pastor of the First Sixth Street Baptist Church of Port Arthur for the past 44 years, died Thursday, May 29 in a Houston hospital.

Funeral services were held Monday, June 2 at the church with the Rev. Wayne Morris officiating. Burial was in Live Oak Cemetery.

He was survived by his wife and other relatives.

Dr. Howard was the vice-president of the Cameron Parish NAACP Chapter and had taken part in the observance of Cameron's observance of Dr. Martin Luther King's birthday and the World Day of Prayer on numerous occasions.

Both the Cameron NAACP Chapter and Sheriff James Savoie issued proclamations recognizing Dr. Howard's contribution to Cameron Parish.

## Evacuation

Lower Cameron Ambulance Service District will be providing ambulance transportation, during hurricane evacuations, for those who are bed confined or in need of constant medical care. The patient should have a pre-arranged destination within a reasonable distance from the district.

For more information or to register for this service, contact Byron Broussard at 542-4926.

THE CAMERON PARISH Police Jury Monday honored Pete Picou who is retiring as the Cameron Parish Civil Defense Director after 28 years on the job. He is being succeeded by Freddie Richard. Jurors are pictured presenting a cake to Picou. From left are Jurors Charles Precht, III, Steve Trahan, James Doxey; Pete Picou and Freddie Richard; and Jurors Norma Jo Pinch and Scott Trahan.

## Jury to establish speed limits on parish beaches

By JERRY WISE

The problem of four-wheelers on Cameron Parish beaches came up again at the Police Jury meeting Monday.

Cyndi Sellers, president of Beach District 2, told the jury that a speed limit was needed on Rutherford Beach due to the reckless operations of some four-wheelers there.

"We aren't trying to stop the four-wheelers, we just want to slow them down," she said.

Several Rutherford Beach camp owners reported that the four-wheeler activity had caused some owners to sell their camps.

They said they afraid to call the sheriff's department because of retaliation from riders.

Jurors agreed to ask the sheriff's department for extra patrols at Rutherford Beach and also asked the Beach Development Board to come up with suggestions for speed limits and regulations.

Johnny Poole, chairman of Beach Development District 1 which governs beach on the west side of the parish, said a bill prohibiting four-wheelers on beaches was making its way through the Legislature.

He agreed to contact Senator Jerry Theunissen and ask him to amend the bill to include a speed limit on beaches.

## PICOU HONORED

Pete Picou, Cameron Parish Civil Defense director for the past 28 years, was honored by the jury and presented with a cake in recognition of his retirement.

Freddie Richard, the new C.D. director, also was in attendance.

## WATER BOARD QUESTIONED

Scott Henry, a member of one of the drainage boards, raised the question of what is the purpose of the Cameron Parish Water Management Board.

Jurors were told the board was created several years ago to provide communication between the various parish drainage boards on mutual problems.

However, it was noted that the board hasn't met in about three years and does not seem to be functioning.

Jurors agreed to write board members and see about reorganization plans.

It was noted that the board

## Bill amended to authorize speed limits

A bill that will affect Louisiana beaches, including Cameron's, has passed both the Louisiana House and Senate and has gone back to the House for its concurrence on amendments attached by the Senate.

Aimed primarily at the controlling of activities by off-road vehicles, the bill prohibits the riding of such vehicles on dunes except on public roads. It would prohibit "willful or malicious cutting, altering, breaking or destroying a dune in any manner or attempting to cut, alter, break a dune in any manner."

Early this week, Senator Jerry Theunissen offered an amendment to the bill to authorize a parish with population between 9,500 and \$10,500 to enact speed limits on beaches.

The amendment was requested Monday by the Cameron Parish Police Jury and is worded to only affect Cameron Parish.

Theunissen's amendment would exempt a person operating under a permit issued by a state or federal agency and would authorize private landowners to traverse dunes using off-road vehicles during "the scope of inspection, repair, construction, or other improvements to the land."

The original bill, offered by Rep. William Daniel of Baton Rouge, provides for fines starting at \$100 and going up to \$1000 and 30 day imprisonment for violators.

has no money and is in an advisory capacity only.

## IMCAL BILL DENIED

The jury was asked to approve the annual IMCAL dues of \$1400 but jurors voted not to pay them as they did not feel the parish was getting much benefit from the agency.

IMCAL was created some years ago as a planning district to help Southwest Louisiana parishes with securing grants.

## APPOINTMENTS

The jury accepted the resignations of Mike Guillory from Ambulance Dist. 2, and Edward Petersen from the

Library Board and Water Management Board. Replacements will be named later.

Ricky Guidry resigned from Waterworks Dist. 11 and was replaced by Grace Robideaux.

## BIDS ACCEPTED

The bid of the Cameron Parish Pilot to be the official journal of the Jury was accepted.

The low bid of \$581,233 from R. E. Heidt Construction was accepted for the overlay of roads in the parish was accepted.

## BORROWING OK'D

Fire District 9, Grand Chenier, was given the O.K. to borrow up to \$400,000 to purchase two new fire trucks, to be repaid with tax money over six years.

At the request of Jurors James Doxey and Scott Trahan, jurors approved the installation of three street lights on North Abraham St., Little Chenier and Rutherford Road.

Charles Precht voted not citing the additional monthly expense to the parish.

Jurors voted to deny a request from Tetra Tech EM, Inc. for a temporary waiver of load limits on Parish Road 104. The company is engaged in a cleanup project in the Talen's Landing area.

Jurors said the road was in bad shape already and suggested that the company could use lighter loads.

## TEAMS HONORED

Parish high school teams that have recently won state honors were presented with certificates by the jury.

These included the South Cameron girls track and softball teams and South Cameron and Johnson Bayou wrestlers.

## Miller home

Marine Corps Lance Cpl. Corey J. Miller, a 2000 graduate of Bell City High School, recently returned from a nine-month deployment while assigned to the 24th Marine Expeditionary Unit, based in Camp Lejeune, N.C.

Miller is one of more than 4,000 Atlantic Fleet Sailors and Marines deployed aboard the ships of the USS Nassau Amphibious Ready Group who participated in Operation Iraqi Freedom.

## Nature Trail gets national recognition

(Lake Charles American Press)

The Creole Nature Trail All-American Road was honored with a Best Practices Award for Marketing during the National Scenic Byways Conference last week in Albuquerque, N.M.

The Creole Nature Trail All-American Road was chosen as one of the best examples of innovative planning, partnering, funding and implementing byway projects.

From 37 entries, nine awards were given this year for excellence in recognizing and acting on possibilities, marketing, leveraging resources, interpretation, the built byway environment and conservation.

"We are delighted to see our efforts to market the Creole Nature Trail All-American Road recognized nationally," said Montie Hurley, chairman of the Creole Nature Trail National Scenic Byway District.

The Creole Nature Trail, named a National Scenic Byway in 1996 and named one of only 20 All-American Roads in 2002, is a 180-mile drive traversing Calcasieu and Cameron parishes in Southwest Louisiana.

Three wildlife refuges, marshlands, sandy gulf beaches, and a wide variety of native flora and fauna can be enjoyed along this nature lover's paradise.

CAMERON PARISH Registrar of Voters Ruby Kelley, left, and Assistant Registrar Suzanne Nunez are pictured with a new type of absentee voting machine that speeds up absentee voting. They reported that qualifying for the Oct. 4 "big election" will be Aug. 19-21.

## Pilot columnist W. T. Block knighted by Queen Beatrix

W. T. Block of Nederland, Texas, historian/columnist, was recently named as a Knight of the Royal Order of Orange-Nassau by Queen Beatrix of the Netherlands.

A medal was presented to Mr. Block in a ceremony held at the Tex Ritter Park in Nederland. Ed J. Reitsma, Consul General of the Netherlands, made the presentation.

The award was given to Mr. Block for his work to preserve the history of the Dutch settlers in Nederland, Texas.

Approximately 100 people attended the ceremony including city officials, Nederland residents and friends and relatives of Mr. Block. Refreshments were later served at the City Hall.

Following the city's gathering, family members from all parts of the country gathered at the home of Mr. Block's niece, Rhonda Posey, for what turned out to be an impromptu family reunion.

Mr. Block has been a columnist for the Cameron Pilot and DeQuincy News for a number of years and is recognized as a foremost historian of the Southwest Louisiana and East Texas area.

His family came from the Grand Chenier, Cameron and Johnson Bayou areas of Cameron Parish.

IN A CEREMONY held at the Tex Ritter Park in Nederland, W. T. Block was appointed by her Majesty Beatrix, Queen of the Netherlands as Knight of the Royal Order of Orange-Nassau. The award was presented by the Consul General of the Kingdom of the Netherlands, Mr. Ed J. Reitsma.

REPRESENTING CAMERON PARISH and the LA Fur and Alligator Council at the recent Louisiana Sportsmen's Show were Trista Semien, Miss Cameron Parish, and Tiffany Wing, LA Fur and Wildlife Festival Queen. The yearly event, held at the Superdome in New Orleans, featured over 400 booths catering to interests of outdoor enthusiasts. Trista and Tiffany, along with Mr. Charles Pettifer, attended the event to help promote the fur and alligator industries.

# FUNERALS

## VERNON NUNEZ

Funeral services for Vernon "Joe" Nunez, 36, of Bayou Vista, were held Monday, June 2, in Johnson Funeral Home. The Rev. Charles Gilder officiated. Burial was in Consolata Cemetery.

Mr. Nunez died Thursday, May 29, 2003, in a Houston hospital.

He was born in Lake Charles, and he spent most of his early life in Creole. He had lived in Bayou Vista, near Morgan City, for five years.

Mr. Nunez was a graduate of South Cameron High School and Sowela Technical Institute. He was a manager for M-1 Drilling Fluids in Berwick.

He is survived by his wife, Elizabeth Kingrey Nunez of Bayou Vista; two sons, Jonathan and Shawn Nunez, both of Bayou Vista; his mother, Evelyn Chapman Nunez of Cameron; his father and stepmother, John Vernon and Alice Nunez of Iowa; one brother, Ronald Nunez of Sweetlake; two sisters, Kathleen Nunez of Cameron and Stephanie Nunez of Broussard; maternal grandfather, Donald Chapman of Jennings; and paternal grandmother, Laura Nunez of Cameron.

Nothing is a waste of time if you use the experience wisely.  
- Auguste Rodin

## JOHN WHITNEY THERIOT

Funeral services for John Whitney Theriot, 92, of Creole, were held Tuesday, June 3, in Sacred Heart Catholic Church. The Rev. Joseph McGrath officiated. Burial was in Chenier Perdue Cemetery in Little Chenier.

Mr. Theriot died Saturday, May 31, 2003, in the Cameron hospital.

He was a lifelong resident of Creole. He was the first Louisiana Department of Wildlife and Fisheries game warden at the Rockefeller Refuge in Grand Chenier. He retired as refuge maintenance foreman. He was a member of the Farm Bureau, a genealogist and a lifelong cattleman. He was a great-grandson of the first settlers of Chenier Perdue.

Survivors include his son, Winston Theriot of Creole; two daughters, Virgie Nunez and Ouida Boudreaux, both of Creole; a sister, Tassie Nunez of Creole; 13 grandchildren and 19 great-grandchildren. He was preceded in death by his wife, Wilmer Bonsall Theriot.

The kiss of the sun for pardon, The song of the birds for mirth, One is nearer God's Heart in a garden Than anywhere else on earth.  
{from 'God's Garden'}  
- Dorothy Frances Gurney

SOME OF THE students of the third grade classes of Cameron Elementary School are shown taking a break on the grounds of the Old State Capital in Baton Rouge while on a field trip.

## REMEMBER?

# Grand Lake High grads of 1940 are remembered

(Lake Charles American Press, June 1, 1940)

### GRAND LAKE GRADUATES

Members of the Grand Lake High School graduating class of 1940 are: Jouetta LeBoeuf, Betty McCain, salutatorian; Lind Demarets, Hebert Hebert, Willert Demarets, Leeland LeDoux, Robert Hebert, Della Trahan, Paul Reon, Madora LeBoeuf, Charlie Faulk, valedictorian; and Clifford Guidry. The exercises will be under the direction of W. E. Hackett, principal.

(Lake Charles American Press, June 6, 1940)

### CREOLE HD CLUB

The topic of discussion at the Creole Home Demonstration Club, held at the home of Mrs. N. Broussard, was varnish stain and wax for floors and woodwork. Miss Sophie Bernard, agent, told how to make varnish and stains at home.

Attending were: Mesdames C. A. Miller, J. H. Miller, P. H. Montie, N. Broussard, Boudreaux, P. C. Richard, Miss Agnes Broussard, and Miss Sophie Bernard.

### NATURAL GAS SOUGHT

A decision on the creation of a natural gas system for the community of Holly Beach was postponed by the Cameron Parish Police Jury Monday pending outcome of the jury's bill in the legislature which would give it the authority to set up a parish-wide gas system.

A Holly Beach delegation headed by Tommy Pease told the jury that a Baton Rouge group has agreed to finance a private gas company to serve Holly Beach should it receive a franchise from the police jury.

### ARTIFICIAL REEF PLANNED

Gulf of Mexico fishermen operating out of Cameron may shortly be catching fish off Louisiana's first artificial fishing reef.

Clark Hoffpauer, Director of the Wildlife and Fisheries Commission, said the agency will construct such a reef in the Gulf some 20 miles off Cameron.

Hoffpauer said the reef will be built, in conjunction with the Coast Guard and Army Corps of Engineers, of "large, discarded concrete blocks about the size of an ordinary office desk and weighing about 1 1/2 tons each."

### MRS. DAVIS RETIRES

Mrs. Bessie W. Davis, after teaching 41 years in the Cameron Parish School System, is retiring. The faculty of the Cameron Elementary School honored Mrs. Davis Tuesday of last week with a reception and presented her with a beautiful English silver cake tray.

Mrs. Davis, the former Bessie Nunez of Grand Chenier, was graduated from high school in Lake Arthur after which she attended Louisiana Normal College in Natchitoches for one year. Because teachers were so badly needed in Cameron Parish, Mrs. Davis consented to enter the school system here and teach. For several

years until she completed degree requirements, she went to summer school at SLI and McNeese.

For the first few years of teaching at Creole High School Mrs. Davis lived in the home of a cousin, Johnny Miller, who was Sheriff of Cameron Parish at the time. Weekends were spent at Oak Grove, with the mode of travel between the two communities on horesback.

During her teaching career, Mrs. Davis served under principals U. E. Hackett and H. P. LeBlanc at the old Creole High School, Adam Thibodeaux in the VFW Hall after Hurricane Audrey in 1957, W. J. Broussard, J. C. Reina and William O. Morris at the Cameron Elementary School.

ren Eagleson; vice president, Diane Broussard; treasurer, Mary Kelley; reporter, Felice Dardeau; historian, Jennie Jones; parliamentarian, Margaret Savoie; song leaders, Ro Risa Reina, Kathy Miller.

### GRAND CHENIER WALKERS

A number of Grand Chenier ladies have been walking regularly for a few years even on fair weather days in the winter, but since spring, many more are joining the activity. Many who are very enthused about their walking are Mesdames Dudley Mayard, Alvin Conner, Savan Miller, Charlie Davis, Thomas McCall, Carl McCall, Denise McCall, Sonny McCall.

### MOSQUITOES

Mosquitoes and more mosquitoes was the main topic of the conservation among Chenier people this week. The Chenier was invaded by mosquitoes from one end to the other, the worst seen for several years.

### FHA OFFICERS ELECTED

The South Cameron High School chapter of the Future Homemakers of America as elected officers for the 1970-71 school session.

(Photo by Cyndi Sellers.)

THE CAMERON PARISH Library will host a free puppet show on Wednesday June 11, at 10 a.m. at the Main Branch of the library and again at 2: p.m. at the Grand Lake Firemans Center featuring Hobgoblin Hill Puppets.

SHOWN CUTTING the ribbon last week opening the Johnson Bayou Branch of the Cameron Parish Library were, from left: Branch Manager Penny Trahan, Wanita Harrison, Parish Librarian Charlotte Trosclair, Edmund Peterson, John Calzada, Puddy Solina, Cyndi Sellers, and Allen Parish Librarian Karen Teigen.

## Trahan-Romero to wed

Mr. and Mrs. Robert Romero of Johnson Bayou announce the engagement and forthcoming marriage of their daughter, Amber Nichole to Brandon Eldaw Trahan, son of Mr. and Mrs. Eldaw Trahan of Johnson Bayou. The wedding is set for June 21 at Johnson Bayou Pentecostal Church at 7 p.m. followed by a reception at the Johnson Bayou Community Center. Through this means, family and friends are invited to attend.

## Puppet show set June 11

The Cameron Parish Library will host a free puppet show on Wednesday June 11, at 10 a.m. at the Main Branch of the library and again at 2: p.m. at the Grand Lake Firemans Center.

Hobgoblin Hill Puppets is a traveling troupe begun in 1987 by Alice Wallace in Youngsville, LA, with a unique style of hand-carved and sculpted puppets in researched historic costumes. Once she teamed up with Rick Rowan of Lafayette, the troupe took off. From that time, the group has brought quality puppetry to festivals, libraries, museums, schools, parks, zoos, and parties in Texas, Mississippi, Alabama, and Louisiana.

The style of puppetry of the troupe is a wide variety of humorous or satirical skits which seem to appeal to adults as well as children.

The Summer Reading Program is supported by a grant from the Louisiana Division of the Arts, Office of Cultural Development, Department of Culture, Recreation and Tourism in cooperation with the LA State Arts Council as administered by the Arts & Humanities Council of SWLA.

## S. Cameron honor roll announced

## — NOTICE TO YOUTHS —

Workforce Investment Act (WIA) has funds available to eligible applicants. All youth participants must meet the WIA eligibility criteria. Under WIA section 101(13) an eligible youth is defined as:

- Is age 14 through 21
- Is a low income individual
- Is within one or more of the following categories:

- Deficient in basic literacy skills;
- School Dropout;
- Homeless, runaway, or foster child
- Pregnant or parenting;
- Offender; or
- Is an individual (including a youth with a disability) who requires additional assistance to complete an educational program, or to secure and hold employment

At time of application, the participant must provide documentation to verify age (date of birth), social security number, selective service registration, citizenship, residence (address), and proof of family income for six months prior to application.

The program is sponsored by the Calcasieu Parish Police Jury, Workforce Investment Board, and funded by the Workforce Investment Act (WIA).

Auxiliary Aids and Services are available upon request to individuals with disabilities.

This is an Equal Opportunity Employer/Program.

Please contact Dinah Landry at Cameron Community Action Agency at (337) 775-5668, or Lana Miller at Cameron Community Action Agency at (337) 598-5158.

**LIL SWINGING STARS** (2 to 4 year-olds) played at the May 10th Fun Day at Cameron Recreation Center. They were coached by Pam Carroll, Wade Carroll, Sr., Thump McCall, and Darren Miller. Several parents also helped. Team members shown above were: (seated, from left) Briley Richard, Sydnee McCall, Lance LeBove, Niklas Bailey, Quade LeBouef, Hunter Theriot, Allie Bonsall, Kelsi Moon, Jakin Morlas, Abby LeBouf, Kristopher Reina, Olivia Hebert; (standing, middle row) Kirston Landreneaux, Madison Huffman, Madaly Mudd, Nathanel Pugh, Cassidy Conner, Ethan Miller, Gatlin Welch, James Dupont, Kannon Guilbeaux, Baleigh Conner, and Marlee Boudreaux.

**CAMERON OUTDOORS**  
**June busting out all over**  
 By Loston McEvers

**FROG SEASON OPENS**  
 Hurricane season is here. Although officially summer begins June 21, last week we saw a 95 degree day. It's time to renew your fishing license as on June 30 they will expire. Remember if you fish both freshwater and saltwater, you'll need to get a basic fishing license which is good for freshwater, but you also have to buy a saltwater license.

June 1, frog season reopens and mottled duck banding begins. Squirrel breeding season for nesting begins. Male cottonmouth battle for females, striped bass are schooling, and alligator nesting peaks this month. Statewide breeding birds surveys are being conducted, while eastern bluebirds are building nests. This is also an important month for nesting ducks in the northern breeding sites, hopefully we don't see a drought this year, as

this will surely affect our number of days and daily bag limit for our fall duck season. There were a couple of state fishing records set in June. In June 1992, David Weber caught a 61 pound redfish, which ranks first in the saltwater species division, while on June 13, 2000, Brian Matthew caught a 63.63 pound striped bass in the Gulf of Mexico, which ranks first in the flyfishing division. Many of our offshore anglers are waiting for July, as recreational shark harvest opens, as well as looking forward on the king mackerel season.

**LEMESCHE BASS CLUB**  
 The Lemesche Bass Club will hold the June tournament on Saturday, June 14 because of Father's Day. This will be a draw tournament, and fishing will be out of the Big Burn. Team names will be printed next week.

**GIBBSTOWN DOGFIGHT RESULTS**  
 The results of week #5: Allen Thibodeaux and Shane Susatt, 4.71 and tie for second largest bass, 2.60; James Houston and Jal Slaughter 4.56; Carl Broussard and Ricky Canik 4.34; Jay Guillot and Steven Busden tie for second largest bass 2.6; and Shayne LaBove and Keith Eagleston first place largest bass, 2.79. All anglers had three bass.

The #6 week dogfight has 25 boats hitting the water. Allen Thibodeaux and Shane Susatt took first place 5.89 and had the largest bass of 2.66. Second place with stringer and largest bass with Harris O'Blone and Heath Nunez 4.76 stringer, 2.4 bass. Clint Fontest and Richard Duff had 4.41 and Johnny LeDoux and Russell Pesson had 4.01.

**AREA FISHING**  
 Marsh fishing is getting harder to fish, as water is low, especially the Big Burn. There are a lot of trails that are not passable and getting to some ponds is really bad. I'm afraid we'll start seeing dead fish floating. One thing is with water this low, I think we'll see larger bass caught. Saltwater fishing has been pretty good, but the strong winds have made tough fish-

**Johnson Bayou Recreation Center News & Activities**

The following events are planned for June:  
 Board meeting is set for Thursday, June 12 at 6:30 p.m.  
 Anyone interested in playing Men's softball may sign up at the recreation center. Deadline is June 16 and games start June 23.  
 Skating will be held on Sunday, June 15 and 29 from

2:30-4 p.m.  
 Teen Talks will be held on Sunday June 15 and 29 from 4-5 p.m. A hot meal will be served. You must be 12 to attend.  
 Free throw competition Tuesday, June 17 at 4:30 p.m.  
 Martial Arts classes are held every Thursday night at 6:30 p.m. at the Community Center for children. Adult classes have been changed to Wednesday nights at 6:30 and Thursdays from 8-9:30 p.m. call Stacey Badon at 569-2699, Christen Trahan at 569-2611, or the recreation center.

We will also be offering group guitar lessons for beginners on Tuesday nights at 7 p.m.

**BART Classes**

The recreation center's "Keep It Real" program will be having BART classes every Monday from 5-7 p.m. starting June 9. BART is Being A Responsible Teen seminar put on by the Southwest Louisiana Aids Council in

Lake Charles. We will also participate in games, watch videos and skits. For information contact Christen Trahan at 569-2288 or 569-2611.

**Keep It Real**

The recreation center's Keep It Real program is continuously offering group and individual chat sessions every Thursday at the Johnson Bayou Fire Station. We will hold a weekly 45 minute session that participants may attend to discuss different topics of relevance with a certified family and youth counselor. If you are interested you may contact Stacey Badon at 569-2699, Christen Trahan at 569-2611, or the recreation center. If individual sessions are need please call to set one up by appointment.

The Johnson Bayou Recreation Center kitchen will be open every day of the week from 3-8 p.m.

In Memory of  
**Lurlie Mae Broussard**  
 June 14th 1930 - June 8th 2002

One year has gone by, since we all said goodbye. Beloved wife, mother, grandmother, friend. God called you back home on June 8th - his light shone. Your life's journey now at an end.

Out of sight, out of touch, we miss you so much. We are lost without you by our side. Yet your spirit remains to console our deep pain. Precious memories are cherished with pride.

You left us a treasure - For us to find pleasure, ask the Lord for the same map and key. Let us follow your lead. Give to others in need. Life eternal...your destiny.

**Enhancing our community.**

**Youth Activities:** I plan to sponsor activities that will encourage our school age children to remain drug free. I think that it is necessary for the Sheriff's department to educate our youth of the harmful effects of drugs. Also, I believe that it is equally necessary for our youth to appreciate the consequences of illegal drug use. The focus of the program will be drug prevention.

**Stranger Danger Awareness Program for Children:**  
 I will institute a school-based program to educate our children about the possibility of abductions and how to react to threatening strangers. We will network with surrounding law enforcement agencies to apprehend perpetrators as quickly as possible.

## Cameron Communications celebrating 75 years service

By SONNY MARKS

(Lake Charles American Press)

Cameron Communications began digital television service in Hackberry last month. Those customers can now get more than a hundred channels by connecting their televisions through their telephone lines.

As Carlyss-based Cameron Communications celebrates 75 years of business, it remains on the cutting edge. The company now offers telephone service, high-speed internet access and video entertainment, all through phone lines. Cameron President and General Manager George Mack said he knows of no one else in Louisiana offering digital television service.

If things go according to plan in Hackberry, Cameron Communications wants to extend the service to its customers in Holly Beach, Johnson Bayou, Cameron, Creole, and Grand Chenier. It would then expand to rural customers east of DeRidder, in Elizabeth, Pitkin and Sugartown.

Service might then be extended to rural customers along the Texas Gulf Coast, northeast of Galveston. After that, Cameron might look beyond its current service

area, perhaps into Grand Lake/Sweetlake. Although, Mack doesn't foresee competing in Lake Charles and similar larger areas.

Digital television will compete with satellite television and, in some cases, cable. In some rural communities, such as Grand Chenier, cable television providers have pulled out because it's not cost-effective.

Mack said digital television provides uninterrupted viewing, compared to interference sometimes experienced with satellite television. Also, satellite networks don't allow some viewers to get local networks. Mack said that's not a problem with digital television.

He said an advantage over cable is that Cameron's digital television wires are buried underground. Aerial cable is susceptible to damage caused by high winds.

Customers who get both telephone and digital television service through Cameron Communications will be able to get caller ID on their television screens.

Mack said he wants to pursue wireless keyboards for internet access, among other innovations.

"I see us, long-term, becoming the Blockbuster video of these rural communities. They'll have video on-

## New Novels at Library

New novels at the Cameron Parish Library include:

All He Ever Wanted, Anita Shreve; Good Faith, Jane Smiley; Good Morning, Killer, April Smith; A Ship Made of Paper, Scott Spencer; Dating Game, Danielle Steel.

Bay of Souls, Robert Stone; Money for Nothing, Donald E. Westlake; Home Before Dark, Susan Wiggs; The Reluctant Suitor, Kathleen E. Woodiwiss; Dirty Work, Stuart Woods.

demand, where they'll be able to take a movie, download it, play it back and watch it when they want," Mack said.

He foresees the expansion of video games, in which players go online to compete live against anyone in the world.

Cameron is continuing a 75-year trend of being on the forefront. The company provided phone service to Hackberry in 1928, before there was an adequate road in and out of the community. The discover of oil near salt domes created demand for phone service.

Phone lines connected Sulphur to Hackberry in 1928, when conventional travel took four hours.

Thirty years later, Cameron Communications created the nation's first dialmobile telephone service with transmitters and antennas. It met the needs of oil-rig workers.

In the 1950s, the company became the first in Louisiana to install telecommunications microwave communications. The challenge of doing business in wetlands spurred tower-to-tower communications via microwave.

Mercury Cellular and Paging grew out of Cameron Communications in 1986. Mercury became US Unwired in 1997. Cameron Communications and US Unwired are now independent of each other.

Cameron's recent emphasis has been on broadband technology. Chairman Bill Henning said the company will continue to serve the rural population, often neglected by larger companies.

"A lot of people think the rural people are second-class customers and should have inferior service," Henning said. "They should have something that they feel proud of. They can have just as good or better telephone service as everybody in the nation."

The less dense the population, the more it costs to provide service. Henning said, "Sometimes it's been a very expensive thing, but sometimes it's paid off."

Cameron Communications employs 127 people.

## Fall fest in Hackberry

St. Peter's Catholic Church in Hackberry will hold its Fall Festival Saturday, June 21.

Bingo will be played at the Community Center, 11 to 5 and 7 to 9:30.

Barbecue dinners will be sold and there will be games for children.

The next meeting of the Hackberry Knights of Columbus will be at 6:15 p.m., Wednesday, June 18.

PICTURED ABOVE, from left, are Rhonda "Cuddles" Coleman with Cameron Parish Ambulance District 2 and La. Clowning for Safety, Kristi Wasson with CPAD2, Brad Lester with HVFD, D.A.R.E. Officer David (Red) Hebert with CPSO, Russell "Dr. No" Stewart with CPAD2 and La. Clowning for Safety, and children of Hackberry High School helping out with 911 program.

## Safety program put on for students

Recently during EMS week the Cameron Parish Ambulance District 2 along with the Louisiana Clowning for Safety, the Cameron Parish Sheriff's Office D.A.R.E. Program and the Hackberry Volunteer Fire Department sponsored a pro-

gram to promote safety, prevention and the importance of saying no to alcohol, drugs and tobacco.

The children all received a packet with valuable emergency 911 information and fun activities and balloons in the shape of a puppy. There

were several other activities done in and around the parish for all area schools and seniors.

*In Memory Of...*

*Jill Galyn Morales*  
**Daughter, Sister, Aunt**  
**Sept. 6, 1972 - June 4, 1993**

**Today it's been ten years and yet we've not cried our last tear. You were taken from us suddenly...**

**Not one last chance to hug you or say good bye. Not one last moment to be grateful, and thank you for memories so wonderful. To see your smile and laughter will forever echo in our hearts.**

**You are in our dreams, and upon awakening, tears fill our eyes. For the emptiness we feel, our hearts will not conceal. The love you gave filled our hearts. None will ever take your place, Our hearts long for you and your love. We miss you very much.**

**In Your Loving Memory,**  
**DAD, MOM, BRENT, TODD, ROBIN, JUSTIN, JAKIN AND AMANDA**

## Thank You,

The Cameron Parish Library would like to thank everyone who supported and worked to make the openings of the Johnson Bayou Library and the Hackberry Library a success.

Thank you to everyone who took time out from their busy schedules to attend each Grand Opening.

### SPECIAL THANKS TO:

Cameron Communications for donating the delicious food and lovely door prizes; Lake Charles Coca-Cola for the cold drinks; George LeBoeuf and Vergy Hebert for all the extra efforts to make sure everything was ready; Cameron Parish Library Staff for the extra hours spent preparing materials and buildings for the Grand Openings; Cameron Parish Sheriff's Department for donating fingerprinting kits for each open house; Theos Duhon and Jerry Constance for their help in setting up and taking things down at each open house.

### LEGAL NOTICE

## This class action notice about crawfish and ICON-treated rice seed may affect your rights.

You may be affected by a class action lawsuit to decide if rice seed treated with the pesticide ICON damaged crawfish farmed in Louisiana. The case is in the 27<sup>th</sup> Judicial District Court of Louisiana, St. Landry Parish, known as *West, et al. v. G&H Seed Co. and Rhone-Poulenc AG Co., Inc., et al.*, No. 99-C-4984-A.

The Court decided this lawsuit should be a class action on behalf of a "Class," or group of people, that could include you. This notice is a summary of your rights and options. More information is in a detailed notice available online or by calling the toll free number below. If you're included, you have to decide whether to stay in the Class and be bound by the results of a trial, or exclude yourself and keep your right to pursue your own lawsuit. **At this time, there is no money available to Class members, and no guarantee that there will be.**

### WHO IS INCLUDED?

The detailed notice explains exactly who is included. Generally, Class members include people and legal entities in Louisiana who, since January 1999, claim their crawfish crops were damaged by exposure to ICON, and who either: 1) bought ICON-treated seed for rice farming; 2) farmed crawfish, including those who did not buy rice seed themselves; or 3) participated in a crawfish farming sharecropping arrangement. Note that you may be included if you claim that water from a rice field—"tailwater"—caused you crawfish losses downstream. Also, you didn't have to personally farm crawfish to be included.

### WHAT IS THIS CASE ABOUT?

The plaintiffs in the lawsuit claim defendant Aventis CropSciences USA (formerly Rhone-Poulenc AG) brought ICON to market to combat the rice water weevil, without testing the effect on crawfish. They claim ICON is toxic to crawfish and caused crawfish industry losses. Plaintiffs claim the seed distributor defendants (G&H Seed, Nolan Guillot, Mamou Rice, and Crowley Grain) manufactured and sold ICON-treated rice seed, and didn't warn of its danger to crawfish. The plaintiffs ask for money or benefits for the Class from Aventis and seed distributors.

The defendants deny ICON caused crawfish declines, say it's safe when used according to the label, and contend the drought that started in 1999 is the reason for the losses. The seed distributors deny they

did anything wrong, contend they didn't manufacture anything, and say they just followed Aventis' requirements. **The Court has not decided who is right.** The Plaintiffs will have to prove their claims at a trial scheduled to start in March of 2004.

### WHO REPRESENTS YOU?

The Court named lawyers to represent you as "Class Counsel." You will not be charged for them and you do not have to pay any money to participate. Instead, if they get money or benefits for the Class, they may apply to the Court for payment of their reasonable fees and costs, which would be paid by the defendants, or out of any funds recovered before distribution of the net proceeds to the Class. You don't need to hire your own lawyer, but if you do, you will have to pay that lawyer. Eight Class members have been appointed by the Court to be Class Representatives. More information about the lawyers and the Class Representatives is in the detailed notice.

### WHAT ARE YOUR OPTIONS?

You can choose whether to stay in the Class or exclude yourself, and you must decide this now. If you stay in the Class, you will be bound by all orders and judgments of the Court, and won't be able to sue, or continue to sue, any of the defendants for the claims in this case, in any other lawsuit. If money or benefits are obtained for the Class, you will be told how to get a share, and you may have to take steps, such as submit a claim form. **To stay in the Class, you do not have to do anything now.**

If you don't want any money or benefits from this lawsuit, but you want to keep rights to file your own lawsuit against any of the defendants for the claims in this case, now or in the future, you must exclude yourself from the Class. The detailed notice explains how to exclude yourself. The deadline for Exclusion Forms is **August 1, 2003.**

### HOW CAN I GET MORE INFORMATION?

To get a detailed notice, call 1-866-942-3634 or write to Patrick C. Morrow, Attn: Crawfish Case, Morrow & Morrow, P.O. Drawer 1787, Opelousas, LA 70571. Or you can visit the website below to view and print the detailed notice, an Exclusion Form, and other documents about this case and your rights.

## CARD OF THANKS

**PRAYER TO THE Blessed Virgin (Never Known To Fail)**  
Oh, most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity, oh Star of the Sea, help me and show me herein you are my Mother, oh Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, oh, show me herein you are my Mother, oh, Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. (The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.)

# LEGAL

**PUBLIC NOTICE CAMERON PARISH COASTAL USE PERMIT APPLICATION**  
Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49, 213.1, the State and Local Coastal Resources Management Act of 1978, as amended.  
L.C.U.P. # 030618  
Name of applicant: Kelly & Judy Vigo, 9501 Gulf Hwy., Lake Charles, LA 70607.  
Location of permit: Grand Lake-Section 6, T12S-R8W, Cameron Parish, Louisiana.  
Character of Work: Mr. & Mrs. Vigo proposes to excavate approximately 48,000 cubic yards of top-

soil, sand, and clay to provide fill materials for construction of a subdivision road with 30-40 lots. The excavated area will be used as a fishpond.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with Police Jury ordinance. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, P.O. Box 1280, Cameron, Louisiana, (337) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Post Office Box 1280, Cameron, Louisiana 70631.  
Sincerely,  
/s/ Earnestine T. Horn,

## Thank You,

Thanks to everyone for attending the Barbeque and Crab Boil for Gene Constance. Special thanks to the Hackberry Ramblers, Dale and Fran Cherot, Hixson Dale Thomas, Jesse Raphael for the Crab Boil, J. C. & Evelyn Goodrich for preparing the meats for the Barbeque and Angie Williams for all the trimmings.

Cleo J. Duhon

**Boy, Kathy didn't you look great. Too bad you are now... 48!**  
**Happy Birthday, but don't worry, we still think you look great!**  
**Love, Paula, Chance, Teffany, Sabrina, Morgan, Helen & Deanna**

## Too many bills? Overloaded credit cards? Need home repairs?

Our Prestige Home Equity line of credit is the proper medicine for you.

Borrowing against the equity in your home is the smart, painless way to pay for all sorts of things. Consolidate your debt, plan a great vacation, do some home improvement or pay for college. Whatever you need the money for, the equity in your home can provide the means. And best of all, in most cases the interest you pay on the loan may be tax deductible. Stop by Cameron State Bank today. We're offering an opportunity to relieve the stress with a low **3.99% APR** rate on our home equity line of credit.

For more information stop by one of our 23 convenient banking centers today.

Normal credit qualifications apply. Regular closing fees are waived on credits in excess of \$10,000.00. Introductory rate for 6 consecutive billing cycles with variable rates as low as the Wall Street Journal Prime Rate +0% thereafter. As of 11/01/02, the Wall Street Journal Prime Rate was 4.75% and subject to change. Maximum possible APR is 18%. Your rate and corresponding APR may be higher than the offered rate and depends on the actual loan amount, repayment term, the LTV (loan to value) ratio, your credit history, Cameron State Bank's internal credit policies, and the date your application is received. Rates are subject to change at any time without notice. This offer is available only on new home equity loans and subject to property approval. Property and flood insurance may be required. \$50.00 annual fee on line of credit may apply. Consult your tax advisor regarding deductibility of interest. Limited time offer.

## NOTICE

**Cameron Parish District 1 Beachfront Development Board will hold a meeting on Monday, June 9 at 6:30 pm at the Johnson Bayou Community Center. For information call John Poole: 337-762-4466**  
RUN: June 5 (J-17)

LEGAL NOTICE

JAMES R. SAVOIE SHERIFF AND TAX COLLECTOR PARISH OF CAMERON

BE IT KNOWN THAT JAMES R. SAVOIE, SHERIFF AND EX-OFFICIO TAX COLLECTOR FOR THE PARISH OF CAMERON, STATE OF LOUISIANA, IN ACCORDANCE WITH THE LAW, DO HEREBY CERTIFY THE FOLLOWING:

THAT THE ATTACHED LIST IS A TRUE AND COMPLETE LIST OF ALL TAX DEBTORS OWING DELINQUENT TAXES ON MOVABLE/IMMOVABLE PROPERTY FOR THE YEAR 2002.

THAT I HAVE MAILED CERTIFIED NOTICES, WITH RETURN RECEIPT REQUESTED, TO EACH DELINQUENT TAX DEBTOR AS REQUIRED BY R.S. 47:210.

THAT THE TAXES FOR 2002 ON THE ATTACHED LIST OF ASSESSMENTS ARE STILL DUE AND UNPAID.

THIS LIST IS COMPILED AND RECORDED IN THE OFFICE OF THE CLERK OF COURT, CAMERON PARISH, LOUISIANA IN ACCORDANCE WITH LA. REVISED STATUTE 47:2180 AND SHALL BE RECEIVED BY THE COURTS AS EVIDENCE.

James R. Savoie EX-OFFICIO TAX COLLECTOR

James R. Savoie, Sheriff and Ex-Officio Tax Collector

PARISH TAX SALE OF MOVABLE AND IMMOVABLE PROPERTY

PARISH OF CAMERON VERSE DELINQUENT TAX DEBTORS OFFICE OF SHERIFF AND EX-OFFICIO TAX COLLECTOR PARISH OF CAMERON

The amount of taxes advertised does not include interest and advertising cost. Call 337/775-5826 for the total amount due.

All taxes paid after April 1, 2003 must be paid with cash, money order or cashier's check. No personal checks will be accepted after that date.

By virtue of the authority vested in me by the constitution and the laws of the State of Louisiana, I will sell at the principal front door of the courthouse in which the Civil District Court of the Parish of Cameron is held, within the legal hours of judicial sale beginning at 11:00 A.M. on

Wednesday, June 11, 2003

and continue on each succeeding day until said sale is completed, all movable and immovable property on which taxes are now due to the Parish of Cameron, as well as all other taxes in the year 2002 together with interest thereon from the first day of January, 2003 at the rate of twelve percent per annum, one percent per month, or any part thereof until all costs are paid.

The names of such delinquent tax payers, the amount of taxes due by each on the assessment rolls for said year, the movable and immovable property assessed to each to be offered for sale are as follows, to-wit:

Table with columns for parcel ID, owner name, address, and tax amount. Includes entries for 0301062900.00, 0601058400.00, 0301084350.00, etc.

On the date of sale, I will sell such portions of the property as each debtor will point out and in case the debtor will not point out sufficient property, I will at once and without further delay, sell the least quantity of said property of any debtor which any bidder will buy for the amount of taxes, interest and costs due by the said debtor.

The sale will be without appreciation for cash in legal tender money of the United States, and the immovable property sold will be redeemable at any time for the space of three years by paying the price given, including costs and five percent penalty thereon with interest at the rate of one percent per month until paid.

James R. Savoie, Sheriff and Ex-Officio Tax Collector

NOTICE MORTGAGE CREDITORS In conformity with Section 63 of Act of 1888, notice is hereby given to all parties holding mortgages upon real estate, located in the Parish of Cameron, State of Louisiana, on which the taxes for the year 2002 have not been paid, that I will be in the sale of the same at the courthouse door in which the Civil Court is held on

Wednesday, June 11, 2003 and that a number of pieces of said property do in June are now being advertised by posting in conformity with the law preparatory to such sale. The attention of all mortgage creditors is especially called to these advertisements to tax sale and they are warned to take such steps to the sale as may be necessary to protect their interests.

James R. Savoie, Sheriff and Ex-Officio Tax Collector

LEGAL NOTICES
Cont. from Pg. 8

SHERIFF'S OFFICE

In pursuance to law, I did advertise and make the following publication by advertising from the 1st day of May to the date of sale, the within notice of sale in the following as follows, to-wit: THE CAMERON PARISH PILOT, official journal of Cameron Parish, Louisiana.

WITNESSES:

Carl H. Richard
Belaia Dockina

JAMES R. SAVOIE, SHERIFF AND
EX-OFFICIO TAX COLLECTOR
Cameron, Louisiana Parish, Louisiana

Carl E. Broussard
CLERK OF COURT
CAMERON PARISH, LOUISIANA

SHERIFF'S SALE
THIRTY-EIGHT JUDICIAL
DISTRICT COURT
PARISH OF CAMERON
STATE OF LOUISIANA
SUCCESSION OF
NO. 300-3108
Filed: May 8, 2003
HILDA MARIE SWIRE MILLER
NOTICE OF APPLICATION FOR
AUTHORITY TO SELL IMMOV-

ABLE PROPERTY
NOTICE IS GIVEN that
TAMMY ROUX and PEGGY
WARD, as Co-Executrices of the
succession of Hilda Marie Swire
Miller, has applied for an order
authorizing them to sell the fol-

lowing described property, situated
in Calcasieu Parish, Louisiana,
to-wit:
Commencing at the Northwest
corner of the West 10 acres of the
SW/4 of the SW/4 of Section 12,

Township 11 South, Range 6 West,
South 508.7 feet to point of begin-
ning; thence from said point of
beginning proceed South 208.7
feet; thence East 208.7 feet; thence
North 208.7 feet; thence West
208.7 feet to point of beginning,

together with all improvements
situated thereon.

The sales price for the said
immovable property is to be
\$4,750.00 for the estate's one-half
(1/2) ownership interest in and to
the above described property for a
total price of \$4,750.00 cash. An
order authorizing the Co-

Executrices to sell the estate's
one-half (1/2) interest in the
immovable property may be issued
after the expiration of seven (7)
days from the date of last publica-
tion of this notice in Calcasieu
Parish and Cameron Parish. Any
opposition to the application may
be filed at any time prior to the
issuance to such an order.

Cameron, Louisiana, this 8th
day of May, 2003.
/s/Debbie Savoie
DEPUTY CLERK OF COURT
ATTORNEY FOR SUCCESSION:
Edward D. Myrick
Edward D. Myrick, Inc. (PLC)
1135 Lakeshore Drive, Sixth Floor

Bar Roll No.: 9873
RUNS: May 15 & June 5 - M 36

NOTICE
By Virtue of and in conformity
with the provisions of La. R.S.
17:87.1 et seq. and other applica-
ble laws, notice is hereby given
that White Oak Energy, L.L.C. has
applied to the Cameron Parish
School Board for a Pipeline
Right-of-Way to lay, construct,

maintain, operate, repair and
replace or remove one (1) pipeline
for the transportation of produced
waters from the White Oak -
Cutler No. 2 Well to the White Oak
operated Cameron Parish School
Board #1 SWD well located in
Section 16, Township 15 South,

Range 4 West, Cameron Parish,
Louisiana.
Considerations for said right-
of-way shall be based on \$50.00
per rod for a total of approximately
120,774 rods and subject to all
of the terms and conditions shown
in the proposed form of Pipeline
Right-of-Way on file in the
Cameron Parish School Board
Office, Cameron, Louisiana.

Notice Is Further Given that
the Cameron Parish School Board
will consider the application of
White Oak Energy, L.L.C. afore-
said for such Pipeline Right-of-
Way at the regular meeting begin-
ning at 5:00 p.m., June 9, 2003 at
the Cameron Parish School Board
Office, Cameron, Louisiana.
Any objections to the granting
of said Pipeline Right-of-Way will
be duly considered by the
Cameron Parish School Board at
the above time and place.

/s/ Douglas L. Chance,
Superintendent, Cameron Parish
School Board
RUN: May 22, 29, June 5 (M-58)

NOTICE
By Virtue of and in conformity
with the provisions of La. R.S.
41:1261 et seq. and other applica-
ble laws, sealed bids will be
received in the Cameron
Parish School Board Office in
Cameron, Louisiana, on or before
the 9th day of June 2003, at five
o'clock p.m. for a surface lease to
construct, maintain, operate, and
use the CPSB SWD #1 Well for the
disposal of salt water produced
from the White Oak - Cutler Oil
and Gas # 2 Well located in Section
16, Township 15 South, Range 4
West in Cameron Parish,

Louisiana on the following
described tract of land, to wit:
3.0 acres, more or less, in the
form of a square surrounding the
CPSB SWD #1 Well located in
Section 16, Township 15 South,

Range 4 West of Cameron Parish,
Louisiana. Together with full
rights of ingress and egress to said
lands at all times.
At the above time and place,
such bids will be opened publicly
in the Cameron Parish School
Board Office in Cameron,
Louisiana.
All bids are to offer a cash
bonus consideration as full and
adequate consideration for every
right granted by the lease, which
shall be for a term of ten (10) years
from date. All bids shall also offer
an annual rental of not less than
\$2.00 per acre per year, payable in
cash and yearly in advance or
lump sum.

All bids are to offer as consid-
eration a minimum of twenty-five
cents (\$.25) per barrel for each and

every barrel of waters disposed of
in the CPSB SWD #1 Well.

Said sum shall be paid to the
Cameron Parish School Board on
or before the end of the next suc-
ceeding month for water so dis-
posed, together with a report item-
izing the amount of water dis-
posed of in such time period.
Said lease shall be subject to
the following conditions:

(1) The lease will be granted
without warranty of title, either
expressed or implied, except as to
the acts of the Cameron Parish
School Board, but shall be made
with full subrogation and substi-
tution.

(2) Lessee will indemnify,
defend, protect and hold harmless
Grantor from any and all claims,
demands, costs (including but not
limited to reasonable attorney's
fees), expenses, damages, judg-
ments, losses and causes or suits
for damage of any kind or charac-
ter arising out of or resulting from
(i) injury to a person or persons
(including death) resulting from
the construction, existence or
operation of the CPSB SWD #1
Well or use or occupancy by Lessee
of, and the operation or activities
upon, the Said Land, or (ii) from
any and all claims, demands, and
causes of action for

damage to property or injury to or
death of persons, which may in
any way result from, grow out of,
or arise in connection with the
existence, use or operation of the
CPSB SWD #1 Well or the exercise
by Lessee of any of the rights here-
in granted. Lessee will defend any
suit or regulatory action brought
against Grantor resulting from the
pipeline or the operations of the
CPSB SWD #1 Well. LESSEE
SHALL INDEMNIFY AND HOLD
HARMLESS GRANTOR, ITS
AGENTS, EMPLOYEES OR
INVITEES, FROM AND
AGAINST ANY AND ALL
CLAIMS, LOSSES, DAMAGES,
CAUSES OF ACTION, SUITS
AND LIABILITY OF EVERY
KIND, INCLUDING ALL
EXPENSES OF LITIGATION,
COURT COSTS, AND ATTOR-
NEY'S FEES FOR CLAIMS ARISING
OUT OF OR IN CONNEC-
TION WITH THE CPSB SWD #1
WELL OR PIPELINE, ITS CON-
STRUCTION, INSTALLATION,
MAINTENANCE, OPERATION,

REPAIR, OR ANY ACTIVITY
CONDUCTED ON THE RIGHT
OF WAY, THE EASEMENT AREA
OR TEMPORARY CONSTRU-
TION OR REPAIR EASEMENT
BY LESSEE, ITS EMPLOYEES,
AGENTS, CONTRACTORS,
CONSULTANTS, OFFICERS,
DIRECTORS OR EMPLOYEES.

(3) At any time during, and
within a reasonable time (60 days)
after the termination of this
Agreement, Lessee may remove its
equipment, including water dis-
posal equipment, casing in the
CPSB SWD #1 Well, pipelines,
tanks and such other equipment
as may be owned by Lessee, and
such equipment shall remain the
property of Lessee. Lessee agrees
to restore the surface to the origi-
nal condition.

(4) Lessee shall at all times
maintain Said Land in an orderly
and workmanlike manner and
shall keep same clear of rubbish
and debris.

(5) In consideration of the
grant by Grantor to Lessee of the
rights to transport and inject salt
water, Lessee agrees to maintain
the CPSB SWD #1 Well, the
pipeline and all equipment used in
transporting and injecting salt
water to prevent the contamina-
tion or pollution of any of
Grantor's land, ground water or
subsurface water.

(6) All operations shall be con-
ducted in strict compliance with
all applicable laws, rules and reg-
ulations of any federal, state or
parochial government or any
agency thereof having jurisdiction.

(7) Lessee may inject such salt
water into the CPSB SWD #1 Well
into any stratum or formation
therein which is non-productive of
oil and/or gas and which is not a
fresh water bearing sand or forma-
tion.

(8) Lessee shall not dispose of
any salt water from third party
wells without prior written con-
sent of Grantor.

(9) The lease shall be for a
term not exceeding 10 years, with
the right on the part of the Lessee
to renew and extend the lease
from year to year, not to exceed
an additional period of 10 years.

Cash payment, or a certified
check, cashier's check or teller's
check or official check, issued by a
bank payable to the Cameron
Parish School Board, for the full
amount of the cash bonus consid-
eration shall accompany and be
submitted with each bid, and no
bid thus submitted may be there-
after withdrawn or cancelled and
the cash payment, or a certified
check, cashier's check or teller's
check or official check, accompa-
nying the bid of the successful bidder
shall be immediately negotiated by
the Cameron Parish School
Board and the proceeds thereof
disbursed in the manner required
by law.

The successful bidder to whom
the lease is awarded on the date of
the lease sale shall return the
written lease, duly executed, with-
in twenty (20) days after bidder's
receipt of same under penalty of
forfeiture of the lease and the
aforesaid cash payment previously
tended and negotiated in the event
of failure to do so.
The Cameron Parish School

Board reserves the right to reject
any and all bids.

RUN: 5/19, 6/5 & 6/12 (M 69)

The Water We Drink
CAMERON PAR WW DISTRICT
NO 10
Public Water Supply Id
LA1023005

We are pleased to present to
you the Annual Water Quality
Report for the year 2002. This
report is designed to inform you
about the quality of your water
and the services we deliver to you
every day. Our constant goal is to
provide you with a safe and
dependable supply of drinking
water. We want you to understand
the efforts we make to continually
improve the water treatment
process and protect our water
resources. We are committed to
ensuring the drinking quality of
your water. Our water source(s)
are listed below:

Source Name, Source Type,
Source ID Number; Well #2,
Ground Water, 1023005-002; Well
#1, Ground Water, 1023005-001.

A Source Water Protection
Plan is now available from our
office. This plan is an assessment
of a delineated area around our

listed sources through which con-
taminants, if present, could
migrate and reach our source
water. It also includes an invento-
ry of potential sources of contami-
nation within the delineated area,
and a determination of the water
supply's susceptibility to contami-
nation by the identified potential
sources. If you would like to
review the Source Water
Protection Plan, please feel free to
contact our office at the number
provided in the following para-
graph.

We are pleased to report that
our drinking water is safe and
meets federal and state require-
ments. If you have any questions
about this report or concerning
your water utility, please contact
Rhonda Morrison at (337) 569-
2110. We want our valued cus-
tomers to be informed about their
water utility. If you want to learn
more, please attend any of our reg-
ularly scheduled meetings. They
are generally held on a monthly
basis and you can call us at the above
telephone number for a specific
place, date and time.

The Louisiana Department of
Health and Hospitals/Office of
Public Health routinely monitors
for contaminants in your drinking
water, according to Federal and
State laws. The tables that follow
show the results of our monitoring
during the period of January 1st to
December 31st, 2002. All drinking
water, including bottled drinking
water, may be reasonably expected
to contain at least some small
amounts of minerals and other
constituents. It is important to
remember that the mere presence
of these minerals and constituents
does NOT necessarily pose a
health risk. Federal and State reg-
ulations have established maxi-
mum contaminants levels for spe-
cific contaminants. These contami-
nants are called regulated contami-
nants.

In the tables below, you will
find many terms and abbrevia-
tions you might not be familiar
with. To help you better under-
stand these terms, the following
definitions are provided:

AL-(Action Level) - the con-
centration of a contaminant that,
if exceeded, triggers treatment or
other requirements that a water
system must follow.

ND-(Non-Detects)-laboratory
analysis indicates that the con-
stituent is not present.

ppm-(Parts per million) or
mg/L-(milligrams per liter)-one
part per million corresponds to one
minute in two years or a single
penny in \$10,000.

ppb-(Parts per billion) or ug/L-
(Micrograms per liter) - one part
per billion corresponds to one
minute in 2,000 years, or a single
penny in \$10,000,000.

ppt-(Parts per trillion) or ng/L-
(Nanogram per liter) - one part
per trillion corresponds to one
minute in 2,000,000 years, or a
single penny in \$10,000,000,000.

ppq-(Parts per quadrillion) or
pg/L-(Picograms per liter) - one
part per quadrillion corresponds to
one minute in 2,000,000,000 years
or one penny in
\$10,000,000,000,000.

pCi/L-(Pico-curie per liter) -
picocuries per liter is a measure of
the radioactivity in water.

mrem/yr-(Millirems per year) -
measure of radiation absorbed by
the body.

MFL-(Million Fibers per Liter)
- million fibers per liter is a mea-
sure of the presence of asbestos
fibers that are no longer than 10
micrometers.

NTU - (Nephelometric
Turbidity Unit) - nephelometric
turbidity unit is a measure of the
clarity of water. Turbidity in
excess of 5 NTU is just noticeable
to the average person.

V&E-(Variances & Exemptions)
- State or EPA permission
not to meet an MCL or a treat-
ment technique under certain
conditions.

TT-(Treatment Technique) - a
treatment technique is a required
process intended to reduce the
level of a contaminant in drinking
water.

MCL-(Maximum Contaminant
Level) - the "Maximum Allowed"
MCL is the highest level of a con-
taminant that is allowed in drink-
ing water. MCLs are set as close to
the MCLG's as feasible using the
best available treatment technolo-
gy.

MCLG-(Maximum Contami-
nant Level Goal) - The "Goal" is
the level of a contaminant in
drinking water below which there
is no known or expected risk to
health. MCLG's allow for a margin
of safety.

MRDL-(Maximum Residual
Disinfectant Level) - the highest
level of a disinfectant allowed in
drinking water. There is convinc-
ing evidence that addition of a dis-
infectant is necessary for control of
microbial contaminants.

MRDLG-(Maximum Residual
Disinfectant Level Goal) -the level
of a drinking water disinfectant
below which there is no known or
expected risk to health. MRDLGs
do not reflect the benefits of the
use of disinfectants to control
microbial contamination.

Our water system tested a
minimum of 2 monthly samples in
accordance with the Total
Coliform Rule for microbiological
contaminants. During the moni-
toring period covered by this
report, we had the following noted
violations of drinking water regu-
lations (contaminants which were
detected at levels ABOVE their
maximum contaminant level
and/or other types of violations
such as treatment technique, moni-
toring, and reporting violations as
well as action level exceedances):

There were no violations dur-
ing the monitoring period of
January 1st to December 31st,
2002.

In the table below, we have
shown the regulated contaminants
that were detected at levels
BELOW their maximum contami-
nant level. These samples, except
for Lead and Copper results and
surface water systems, were col-
lected at the raw water source and
represent water before any treat-
ment, blending or distribution. As
such, the consumer tap levels

could be less. The last chemical
sampling of our source water was
collected on 8/29/2001. Chemical
Sampling of our drinking water
may not be required on an annual
basis, therefore, information pro-
vided in this table refers back to
the latest year of chemical sam-
pling results.

Contaminant, Date, Code,
Level, MCL, MCLG, Unit, Major
sources in drinking water, Health
effects language;

Lead, 8/29/2001, 1030, 0,
AL=15, 0, ppb, corrosion of house-
hold plumbing systems; Erosion of
natural deposits. Infants and chil-
dren who drink water containing
lead in excess of the action level
could experience delays in their
physical or mental development.
Children could show slight deficits
in attention span and learning
abilities. Adults who drink this
water;

Copper, 8/29/2001, 1022, 0,
AL=1.3, 1.3, ppm, corrosion of
household plumbing systems; Ero-
sion of natural deposit; leaching
from wood preservatives, Copper
is an essential nutrient, but some
people who drink water containing
copper in excess of the action level
over a relatively short amount of
time could experience gastroin-
testinal distress. Some people who
drink water containing copper in
excess of;

Turbidity, 8/13/2001, 0100,
0.02, , NTU, soil runoff, Turbidity
has no health effects. However,
turbidity can interfere with disin-
fection and provide a medium for
microbial growth. Turbidity may
indicate the presence of disease-
causing organisms. These organ-
isms include bacteria, viruses, and
parasites th;

Fluoride, 8/13/2001, 1025, 0.1,
4, 4, ppm, Erosion of natural
deposits; Water additives which
promotes strong teeth; Discharge
from fertilizer and; Some people
who drink water containing fluo-
ride in excess of the MCL over
many years could get bone dis-
ease, including pain and tender-
ness of the bones. Fluoride in
drinking water at half the MCL or
more may cause mottling of chil-
dren's teeth, usually i.

Cadmium, 8/13/2001, 1015, 1,
5, 5, ppb, Corrosion of galvanized
pipes; Erosion of natural deposits;
Dis-charge from metal refineries;
Runoff, Some people who drink
water containing cadmium in
excess of the MCL over many
years could experience kidney
damage.

Environmental Protection
Agency Required Health Effects
Language.

Some people may be more vul-
nerable to contaminants in drink-
ing water than the general popula-
tion. Immuno-compromised per-
sons such as persons with cancer
undergoing chemotherapy, per-
sons who have undergone organ
transplants, people with
HIV/AIDS or other immune sys-
tem disorders, some elderly, and
infants can be particularly at risk
for infections. These people should
seek advice about drinking water
from their health care providers.
EPA/CDC guidelines on appropri-
ate means to lessen the risk of
infection by cryptosporidium and
other microbiological contami-
nants are available from the Safe
Drinking Water Hotline (800-426-
4791).

Thank you for allowing us to
continue providing your family
with clean, quality drinking water
this year. In order to maintain a
safe and dependable water supply
we sometimes need to make
improvements that will benefit all
of our customers.

Please call our office at 337-
569-2110 if you have any ques-
tions.

We at CAMERON PAR WW
DISTRICT NO 10 water system
work around the clock to provide
top quality drinking water to
every tap. We ask that all our cus-
tomers help us protect and con-
serve our water resources, which are
the heart of our community, our
way of life and our children's
future.

The Water We Drink
CAMERON PAR WW DISTRICT
NO 9
Public Water Supply Id
LA1023012
We are pleased to present to
you the Annual Water Quality
Report for the year 2002. This
report is designed to inform you
about the quality of your water
and the services we deliver to you
every day. Our constant goal is to
provide you with a safe and
dependable supply of drinking
water. We want you to understand
the efforts we make to continually
improve the water treatment
process and protect our water
resources. We are committed to
ensuring the drinking quality of
your water. Our water source(s)
are listed below:

Source Name, Source Type,
Source ID Number; Well #6,
Ground Water, 1023012-003; Well
#5, Ground Water, 1023012-002;
Well #4, Ground Water, 1023012-
004; Well #1, Ground Water,
1023012-001.

A Source Water Protection
Plan is now available from our
office. This plan is an assessment
of a delineated area around our
listed sources through which con-
taminants, if present, could
migrate and reach our source
water. It also includes an invento-
ry of potential sources of contami-
nation within the delineated area,
and a determination of the water
supply's susceptibility to contami-
nation by the identified potential
sources. If you would like to
review the Source Water
Protection Plan, please feel free to
contact our office at the number
provided in the following para-
graph.

We are pleased to report that
our drinking water is safe and
meets federal and state require-
ments. If you have any questions
about this report or concerning
your water utility, please contact
Bonnie Theriot at 337-538-2440.
We want our valued customers to
be informed about their water uti-
lity. If you want to learn more,
please attend any of our regularly
scheduled meetings. They are gen-
erally held on a monthly basis and
you can call us at the above tele-
phone number for a specific place,
date and time.

The Louisiana Department of
Health and Hospitals/Office of
Public Health routinely monitors
for contaminants in your drinking
water, according to Federal and
State laws. The tables that follow
show the results of our monitoring
during the period of January 1st to
December 31st, 2002. All drinking
water, including bottled drinking
water, may be reasonably expected
to contain at least some small
amounts of minerals and other
constituents. It's important to
remember that the mere presence
of these minerals constituents
does NOT necessarily pose a
health risk. Federal and State reg-
ulations have established maxi-
mum contaminants levels for spe-
cific contaminants. These contami-
nants are called regulated contami-
nants.

In the tables below, you will
find many terms and abbrevia-
tions you might not be familiar
with. To help you better under-
stand these terms, the following
definitions are provided:

AL-(Action Level) - the con-
centration of a contaminant that,
if exceeded, triggers treatment or
other requirements that a water
system must follow.

ND-(Non-Detects)-laboratory
analysis indicates that the con-
stituent is not present.

ppm-(Parts per million) or
mg/L-(milligrams per liter)-one
part per million corresponds to one
minute in two years or a single
penny in \$10,000.

ppb-(Parts per billion) or ug/L-
(Micrograms per liter) - one part
per billion corresponds to one
minute in 2,000 years, or a single
penny in \$10,000,000.

ppt-(Parts per trillion) or ng/L-
(Nanogram per liter) - one part
per trillion corresponds to one
minute in 2,000,000 years, or a
single penny in \$10,000,000,000.

ppq-(Parts per quadrillion) or
pg/L-(Picograms per liter) - one
part per quadrillion corresponds to
one minute in 2,000,000,000 years
or one penny in
\$10,000,000,000,000.

pCi/L-(Pico-curie per liter) -
picocuries per liter is a measure of
the radioactivity in water.

mrem/yr-(Millirems per year) -
measure of radiation absorbed by
the body.

MFL-(Million Fibers per Liter)
- million fibers per liter is a mea-
sure of the presence of asbestos
fibers that are no longer than 10
micrometers.

NTU - (Nephelometric
Turbidity Unit) - nephelometric
turbidity unit is a measure of the
clarity of water. Turbidity in
excess of 5 NTU is just noticeable
to the average person.

V&E-(Variances & Exemptions)
- State or EPA permission
not to meet an MCL or a treat-
ment technique under certain
conditions.

TT-(Treatment Technique) - a
treatment technique is a required
process intended to reduce the
level of a contaminant in drinking
water.

MCL-(Maximum Contaminant
Level) - the "Maximum Allowed"
MCL is the highest level of a con-
taminant that is allowed in drink-
ing water. MCLs are set as close to
the MCLG's as feasible using the
best available treatment technolo-
gy.

MCLG-(Maximum Contami-
nant Level Goal) - The "Goal" is
the level of a contaminant in
drinking water below which there
is no known or expected risk to
health. MCLG's allow for a margin
of safety.

MRDL-(Maximum Residual
Disinfectant Level) - the highest
level of a disinfectant allowed in
drinking water. There is convinc-
ing evidence that addition of a dis-
infectant is necessary for control of
microbial contaminants.

MRDLG-(Maximum Residual
Disinfectant Level Goal) -the level
of a drinking water disinfectant
below which there is no known or
expected risk to health. MRDLGs
do not reflect the benefits of the
use of disinfectants to control
microbial contamination.

Our water system tested a
minimum of 2 monthly samples in
accordance with the Total
Coliform Rule for microbiological
contaminants. During the moni-
toring period covered by this
report, we had the following noted
violations of drinking water regu-
lations (contaminants which were
detected at levels ABOVE their
maximum contaminant level
and/or other types of violations
such as treatment technique, moni-
toring, and reporting violations as
well as action level exceedances):

There were no violations dur-
ing the monitoring period of
January 1st to December 31st,
2002.

In the table below, we have
shown the regulated contaminants
that were detected at levels
BELOW their maximum contami-
nant level. These samples,

The Water We Drink CAMERON PARISH WW DISTRICT NO 1 Public Water Supply ID: LA1023001

We are pleased to present to you the Annual Water Quality Report for the year 2002. This report is designed to inform you about the quality of your water and the services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the drinking quality of your water. Our water source(s) are listed below:

Source Name, Source Type, Source ID Number; Well #8,- Monkey Island, Ground Water, 1023001-008; Well #7-Eleven Oaks, Ground Water, 1023001-007; Well #6-Jimbo's Pasture, Ground Water, 1023001-006; Well #5- Town & Country, Ground Water, 1023001-005; Well #4-Tince Murphy, Ground Water, 1023001-004; Well #3-W.W. Office, Ground Water, 1023001-003; Well #2-Courthouse, Ground Water, 1023001-002; Well #1-Elevated Tank, Ground Water, 1023001-001.

A Source Water Protection Plan is now available from our office. This plan is an assessment of a delineated area around our listed sources through which contaminants, if present, could migrate and reach our source water. It also includes an inventory of potential sources of contamination within the delineated area, and a determination of the water supply's susceptibility to contamination by the identified potential sources. If you would like to review the Source Water Protection Plan, please feel free to contact our office at the number provided in the following paragraph.

We are pleased to report that our drinking water is safe and meets federal and state require-

ments. If you have any questions about this report or concerning your water utility, please contact Barbara Leblanc at 337-775-5660. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are generally held on a monthly basis and you can call us at the above telephone number for a specific place, date and time.

The Louisiana Department of Health and Hospitals/Office of Public Health routinely monitors for contaminants in your drinking water, according to Federal and State laws. The tables that follow show the results of our monitoring during the period of January 1st to December 31st, 2002. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some minerals and other constituents. I is important to remember that the mere presence of these minerals and constituents does NOT necessarily pose a health risk. Federal and State regulations have established maximum contaminant levels for specific contaminants. These contaminants are called regulated contaminants.

In the tables below, you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms, the following definitions are provided:

AL-(Action Level) - the concentration of a contaminant that, if exceeded, triggers treatment or other requirements that a water system must follow.

ND-(Non-Detects)-laboratory analysis indicates that the constituent is not present.

ppm-(Parts per million) or mg/L-(milligrams per liter)-one part per million corresponds to one minute in two years or a single penny in \$10,000.

ppb-(Parts per billion) or ug/L-(Micrograms per liter) - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

ppt-(Parts per trillion) or ng/L-(Nanogram per liter) - one part per trillion corresponds to one minute in 2,000,000 years, or a single penny in \$10,000,000,000.

ppq-(Parts per quadrillion) or pg/L-(Picograms per liter) - one part per quadrillion corresponds to one minute in 2,000,000,000 years or one penny in \$10,000,000,000,000.

pCi/L-(Picocuries per liter) - picocuries per liter is a measure of the radioactivity in water.

mrem/yr-(Millirems per year) - measure of radiation absorbed by the body.

MFL-(Million Fibers per Liter) - million fibers per liter is a measure of the presence of asbestos fibers that are no longer than 10 micrometers.

NTU - (Nephelemetric Turbidity Unit) - nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

V&E-(Variances & Exemptions) - State or EPA permission not to meet an MCL or a treatment technique under certain conditions.

TT-(Treatment Technique) - a treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

MCL-(Maximum Contaminant Level) - the "Maximum Allowed" MCL is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLG's as feasible using the best available treatment technology.

MCLG-(Maximum Contaminant Level Goal) - The "Goal" is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

MRDL-(Maximum Residual Disinfectant Level) - the highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

MRDLG-(Maximum Residual Disinfectant Level Goal)-the level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contamination.

Our water system tested a minimum of 3 monthly sample(s) in accordance with the Total Coliform Rule for microbiological contaminants. During the monitoring period covered by this report, we had the following noted violations of drinking water regulations (contaminants which were detected at levels ABOVE their maximum contaminant level and/or other types of violations such as treatment technique, monitoring, and reporting violations as well as action level exceedances):

There were no violations during the monitoring period of January 1st to December 31st, 2002.

In the table below, we have shown the regulated contaminants that were detected at levels BELOW their maximum contaminant level. These samples, except for Lead and Copper results and surface water systems, were collected at the raw water source and represent water before any treatment, blending or distribution. As such, the consumer tap levels could be less. The last chemical sampling of our source water was collected on 9/12/2002. Chemical Sampling of our drinking water may not be required on an annual basis, therefore, information provided in this table refers back to the latest year of chemical sampling results.

We are pleased to present to

you the Annual Water Quality Report for the year 2002. This report is designed to inform you about the quality of your water and the services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the drinking quality of your water. Our water source(s) are listed below:

Source Name, Source Type, Source ID Number; Well #4, Ground Water, 1023023-004; Well #3, Ground Water, 1023003-003; Well #2, Ground Water, 1023003-002; Well #1, Ground Water, 1023003-001.

A Source Water Protection Plan is now available from our office. This plan is an assessment of a delineated area around our listed sources through which contaminants, if present, could migrate and reach our source water. It also includes an inventory of potential sources of contamination within the delineated area, and a determination of the water supply's susceptibility to contamination by the identified potential sources. If you would like to review the Source Water Protection Plan, please feel free to contact our office at the number provided in the following paragraph.

We are pleased to report that our drinking water is safe and meets federal and state requirements. If you have any questions about this report or concerning your water utility, please contact Jennings Clark at 337-542-4718. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are generally held on a monthly basis and you can call us at the above telephone number for a specific place, date and time.

The Louisiana Department of Health and Hospitals/Office of Public Health routinely monitors for contaminants in your drinking water, according to Federal and State laws. The tables that follow show the results of our monitoring during the period of January 1st to December 31st, 2002. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some minerals and other constituents. I is important to remember that the mere presence of these minerals and constituents does NOT necessarily pose a health risk. Federal and State regulations have established maximum contaminant levels for specific contaminants. These contaminants are called regulated contaminants.

In the tables below, you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms, the following definitions are provided:

AL-(Action Level) - the concentration of a contaminant that, if exceeded, triggers treatment or other requirements that a water system must follow.

ND-(Non-Detects)-laboratory analysis indicates that the constituent is not present.

ppm-(Parts per million) or mg/L-(milligrams per liter)-one part per million corresponds to one minute in two years or a single penny in \$10,000.

ppb-(Parts per billion) or ug/L-(Micrograms per liter) - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

ppt-(Parts per trillion) or ng/L-(Nanogram per liter) - one part per trillion corresponds to one minute in 2,000,000 years, or a single penny in \$10,000,000,000.

ppq-(Parts per quadrillion) or pg/L-(Picograms per liter) - one part per quadrillion corresponds to one minute in 2,000,000,000 years or one penny in \$10,000,000,000,000.

pCi/L-(Picocuries per liter) - picocuries per liter is a measure of the radioactivity in water.

mrem/yr-(Millirems per year) - measure of radiation absorbed by the body.

MFL-(Million Fibers per Liter) - million fibers per liter is a measure of the presence of asbestos fibers that are no longer than 10 micrometers.

NTU - (Nephelemetric Turbidity Unit) - nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

V&E-(Variances & Exemptions) - State or EPA permission not to meet an MCL or a treatment technique under certain conditions.

TT-(Treatment Technique) - a treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

MCL-(Maximum Contaminant Level) - the "Maximum Allowed" MCL is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLG's as feasible using the best available treatment technology.

MCLG-(Maximum Contaminant Level Goal) - The "Goal" is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

MRDL-(Maximum Residual Disinfectant Level) - the highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

MRDLG-(Maximum Residual Disinfectant Level Goal)-the level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contamination.

Our water system tested a minimum of 1 monthly samples in accordance with the Total Coliform Rule for microbiological

contaminants. During the monitoring period covered by this report, we had the following noted violations of drinking water regulations (contaminants which were detected at levels ABOVE their maximum contaminant level and/or other types of violations such as treatment technique, monitoring, and reporting violations as well as action level exceedances):

There were no violations during the monitoring period of January 1st to December 31st, 2002.

In the table below, we have shown the regulated contaminants that were detected at levels BELOW their maximum contaminant level. These samples, except for Lead and Copper results and surface water systems, were collected at the raw water source and represent water before any treatment, blending or distribution. As such, the consumer tap levels could be less. The last chemical sampling of our source water was collected on 8/28/2002. Chemical Sampling of our drinking water may not be required on an annual basis, therefore, information provided in this table refers back to the latest year of chemical sampling results.

Contaminant, Date, Code, Level, MCL, MCLG, Unit, Major sources in drinking water, health effects language;

Lead, 9/14/2000, 1030, 0, AL=15, 0, ppb, corrosion of household plumbing systems; erosion of natural deposits, infants and children who drink water containing lead in excess of the action level could experience delays in their physical or mental development. Children could show slight deficits in attention span and learning abilities. Adults who drink this water;

Copper, 9/14/2000, 1022, 0, AL=1.3, 1.3, ppm, corrosion of household plumbing systems; erosion of natural deposit; leaching from wood preservatives, Copper is an essential nutrient, but some people who drink water containing copper in excess of the action level over a relatively short amount of time could experience gastrointestinal distress. Some people who drink water containing copper in excess of

Turbidity, 6/17/2002, 0100, 0.36, , NTU, soil runoff, Turbidity has no health effects. However, turbidity can interfere with disinfection and provide a medium for microbial growth. Turbidity may indicate the presence of disease-causing organisms. These organisms include bacteria, viruses, and parasites th;

Turbidity, 6/17/2002, 0100, 0.32, , NTU, soil runoff, Turbidity has no health effects. However, turbidity can interfere with disinfection and provide a medium for microbial growth. Turbidity may indicate the presence of disease-causing organisms. These organisms include bacteria, viruses, and parasites th;

Fluoride, 6/17/2002, 1025, 0.1, 4, 4, ppm, Erosion of natural deposits; Water additives which promotes strong teeth; Discharge from fertilizer and; Some people who drink water containing fluoride in excess of the MCL over many years could get bone disease, including pain and tenderness of the bones. Fluoride in drinking water at half the MCL or more may cause mottling of children's teeth, usually i.

Environmental Protection Agency Required Health Effects Language.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk for infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Thank you for allowing us to continue providing your family with clean, quality drinking water this year. In order to maintain a safe and dependable water supply we sometimes need to make improvements that will benefit all of our customers.

Please call our office at 337-542-4718 if you have any questions.

We, at the CAMERON PAR WW DISTRICT NO 7 water system work around the clock to provide top quality drinking water to every tap. We ask that all our customers help us protect and conserve our water sources, which are the heart of our community, our way of life and our children's future.

SUCCESSION OF NO. 300-3094 ROSE ALDA LAVERGNE FILED: APR. 24, 2003.

38TH JUDICIAL DISTRICT COURT, PARISH OF CAMERON, STATE OF LOUISIANA

NOTICE OF APPLICATION FOR AN ORDER AUTHORIZING A COMPROMISE AGREEMENT AND SALE OF IMMOVABLE PROPERTY

NOTICE IS HEREBY GIVEN that Cheryl Ann Crador West, the appointed duly appointed testamentary executrix of the Succession of Rose Alda Lavergne, deceased, has pursuant to the provisions of Code of Civil Procedure, petitioned this Court for an Order authorizing the compromise of monies belonging to the succession and for authority to sell at private sale for the price of \$7,000.00, payable in cash, and subject to the conditions set forth in the petition herein, the following described property belonging to the succession and situated in Cameron Parish, Louisiana, to-wit:

Beginning at the Northwest corner of Lot Two (2) of the A. B.

Cont. on Pg. 11

**LEGAL NOTICES**  
Cont. from Pg. 10

McCain Heirs Partition, as per plat bearing File Number 63656 of the records of Cameron Parish, Louisiana; thence South 240 feet; thence East 181.2 feet; thence North 240 feet; thence West 181.2 feet the the point of commencement.

With the description of the immovable property subject to change as survey and title opinion might indicate.

Municipal Address: 890 Highway 384, Grand Lake, Louisiana, 70607.

NOW THEREFORE, in accordance with the law made and provided in such cases, notice is hereby given, that Cheryl Ann Crador West, testamentary executrix, proposes to execute a compromise agreement and to sell the aforesaid immovable property at private sale for the price and upon the terms aforesaid, and the heirs legatees, and creditors are required to make opposition, if any they have or can, to such course within seven (7) days including Sundays and holidays from the day whereon the last publication of this notice appears.

BY ORDER of the 38th Judicial District Court on this 24th day of April, 2003.

/s/ Debbie Savoie  
DEPUTY CLERK OF COURT

Cameron Parish EMS  
Lower Cameron Parish  
Ambulance Service District  
Board of Directors Meeting  
April 16, 2003  
Meeting called to order at 5:15 p.m. by President Phyllis Pinch.  
Pledge and prayer led by Mrs. Pinch.

Roll call: Present - Phyllis Pinch, Loston McEvers, Sethie Troscclair and Michael Booth.  
Absent - Christine Mooney.

Mr. McEvers made a motion to accept the minutes from the March meeting. Second by Ms. Troscclair. None opposed. Motion carried.

Mr. McEvers presented the following additions to the agenda: 1. LAMP & CD investments.

Director, Byron Broussard requested that the board make the following addition to the agenda: 1. Police Jury Travel Policy

Mrs. Booth made a motion to make the additions to the agenda. Second by Mr. McEvers. None opposed. Motion carried.

Mr. Broussard presented the bard with his Director's report, which included March call volume, tax revenues collected, payments from accounts receivable, expenses, bank account statements and A/R adjustments.

Mr. McEvers motioned to accept the Director's report. Second by Mrs. Booth. None opposed. Motion carried.

In order to recognize EMS Week, employee Jerrie Miller presented the board with a proposal to purchase materials needed to educate elementary children about 911 and ambulance procedures. Also included were materials for senior citizens to help identify medical history and current medications. Mr. McEvers motioned to purchase these materials and have crews distribute them at Cameron Elementary, South Cameron Elementary, Cameron Council on Aging and to individual senior citizens, within the district, upon request. Second by Mrs. Booth. None opposed. Motion carried.

Mr. McEvers discussed the LAMP investment option, which is available to public entities. He motioned to contact a representative to present the board with details about this option at a future board meeting. Second by Mrs. Booth. None opposed. Motion carried.

Mr. Broussard presented the board with Cameron Parish Police Jury travel expense policy. Mr. McEvers made a motion to adopt the policy for the district. Second by Ms. Troscclair. None opposed. Motion carried.

Mrs. Booth made a motion to adjourn. Second by Mr. McEvers. None opposed. Motion carried. Meeting adjourned.

The Water We Drink  
CAMERON PAR WW DISTRICT  
NO 11  
Public Water Supply ID:  
LA1023001

We are pleased to present to you the Annual Water Quality Report for the year 2002. This report is designed to inform you about the quality of your water and the services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually

improve the water treatment process and protect our water resources. We are committed to ensuring the drinking quality of your water. Our water source(s) are listed below:

Source Name, Source Type, Source ID Number; Well #4, Ground Water, 1023011-002; Well #3, Ground Water, 1023011-001; Well #2, Ground Water, 1023011-004; Well #1, Ground Water, 1023011-003.

A Source Water Protection Plan is now available from our office. This plan is an assessment of a delineated area around our listed sources through which contaminants, if present, could migrate and reach our source water. It also includes an inventory of potential sources of contamination within the delineated area, and a determination of the water supply's susceptibility to contamination by the identified potential sources. If you would like to review the Source Water Protection Plan, please feel free to contact our office at the number provided in the following paragraph.

We are pleased to report that our drinking water is safe and meets federal and state requirements. If you have any questions about this report or concerning your water utility, please contact Cameron Parish Ww District No 11 at 337-598-3439. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are generally held on a monthly basis and you can call us at the above telephone number for a specific place, date and time.

The Louisiana Department of Health and Hospitals/Office of Public Health routinely monitors for contaminants in your drinking water, according to Federal and State laws. The tables that follow show the results of our monitoring during the period of January 1st to December 31st, 2002. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some minerals and other constituents. I is important to remember that the mere presence of these minerals and constituents does NOT necessarily pose a health risk. Federal and State regulations have established maximum contaminant levels for specific contaminants. These contaminants are called regulated contaminants.

In the tables below, you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms, the following definitions are provided:

AL-(Action Level) - the concentration of a contaminant that, if exceeded, triggers treatment or other requirements that a water system must follow.

ND-(Non-Detects)-laboratory analysis indicates that the constituent is not present.

ppm-(Parts per million) or mg/L-(milligrams per liter)-one part per million corresponds to one minute in two years or a single penny in \$10,000.

ppb-(Parts per billion) or ug/L-(Micrograms per liter) - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

ppt-(Parts per trillion) or ng/L-(Nanogram per liter) - one part per trillion corresponds to one minute in 2,000,000 years, or a single penny in \$10,000,000,000.

ppq-(Parts per quadrillion) or pg/L-(Picograms per liter) - one part per quadrillion corresponds to one minute in 2,000,000,000 years or one penny in \$10,000,000,000,000.

pCi/L-(Pico-curies per liter) - picocuries per liter is a measure of the radioactivity in water.

mrem/yr-(Millirems per year) - measure of radiation absorbed by the body.

MFL-(Million Fibers per Liter) - million fibers per liter is a measure of the presence of asbestos fibers that are no longer than 10 micrometers.

NTU-(Nephelometric Turbidity Unit) - nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

V&E-(Variances & Exemptions) - State or EPA permission not to meet an MCL or a treatment technique under certain conditions.

TT-(Treatment Technique) - a treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

MCL-(Maximum Contaminant Level) - the "Maximum Allowed" MCL is the highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the MCLG's as feasible using the best available treatment technology.

MCLG-(Maximum Contaminant Level Goal) - The "Goal" is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

MRDL-(Maximum Residual Disinfectant Level) - the highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

MRDLG-(Maximum Residual Disinfectant Level Goal)-the level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLG's do not reflect the benefits of the use of disinfectants to control microbial contamination.

Our water system tested a minimum of 4 monthly samples in accordance with the Total Coliform Rule for microbiological contaminants. During the monitoring period covered by this report, we had the following noted violations of drinking water regulations (contaminants which were detected at levels ABOVE their maximum contaminant level and/or other types of violations such as treatment technique, monitoring, and reporting violations as well as action level exceedances):

Violation Number, Violation Date, Category, Analyte Name, Analyte Code; 2002, 50037, 1/31/2002, Maximum, Contaminant Level, COLIFORM, TOTAL (TCR), 3100; 2002, 50035, 2/14/2002, Maximum Contaminant Level, COLIFORM, TOTAL (TCR), 3100; Associated Enforcement Actions, St Violation/reminder Notice; Associated Enforcement Actions, St Public Notif Requested; Associated Enforcement Actions, St Public Notif Received.

Fecal coliforms and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Microbes in these wastes can cause short-term effects, such as diarrhea, cramps, nausea, headaches, or other symptoms. They may pose a special health risk for infants, young children, some of the elderly, and people with severely compromised immune systems.

In the table below, we have shown the regulated contaminants that were detected at levels BELOW their maximum contaminant level. These samples, except for Lead and Copper results and surface water systems, were collected at the raw water source and represent water before any treatment, blending or distribution. As such, the consumer tap levels could be less. The last chemical sampling of our source water was collected on 2/4/2002. Chemical Sampling of our drinking water may not be required on an annual basis, therefore, information provided in this table refers back to the latest year of chemical sampling results.

Cameron Parish Ambulance District 2 Board of Directors Meeting Minutes

Cameron Parish Ambulance District 2 board of directors met on May 21, 2003 at 7:00 pm at the Grand Lake Ambulance office. Glenn Trahan, President, called the meeting to order. Todd Morrison led the pledge of allegiance and Dinah Landry led the prayer. Secretary Dinah Landry called the roll. All were present with the exception of Mike Guillory, who has unofficially resigned. Minutes from the previous meeting were mailed to all members. On a motion by Gwen Constance, seconded by Todd Morrison the board voted to approve the minutes as presented.

Director Tom Javins gave the April and May directors report. The directors report showed a balance in the budget of \$380,554.85. The run report showed 61 runs throughout the district. The paramedic program is completed and the students are expected to test national register in September. The Basic EMT class has another 3 weeks of practicals and preparation and should be testing in August. The new units have been painted and all are on the job except Unit #8 which is due to be put on the road on May 28. The Grand Lake Fire Department was the recipient of a grant for an AED. Next spring more grants will be given out. Instructions will be given to the fire department on the usage of the AED. On a motion by Dinah Landry, seconded by Todd Morrison, the board agreed to invite the local law enforcement to be a part of the training also. Pediatric ALS boxes are being set up in each unit. During EMS week, the grade schools and Head Start received packets and a visit from the clown. The accident re-enactment in Johnson Bayou took place just before the prom. This program emphasized the importance of not drinking and driving. On a motion from Dinah Landry, seconded by Gwen Constance, the director's report was approved as presented.

The Cameron Parish Police Jury issued a travel policy. The board of directors adopted the policy on a motion from Dinah Landry, seconded by Todd Morrison and carried. The policy was effective May 1.

The auditing firm of Broussard, Poche, Lewis, and Breaux representatives were on hand to discuss the recent audit. The audit period was from November 1, 2001 through December 31, 2002. The audit was reviewed in its entirety with no immediate findings. The issue of the books segregation of duties in a small office was discussed. The auditors found all of the books in excellent order and commended Denise Richard, fiscal officer for a job well done. On a motion by Dinah Landry, seconded by Gwen Constance, the board approved the audit report. A discussion was held on an agency credit card. The auditor recommended that a card be obtained with a set of controls on the usage of the card. On a motion by Todd Morrison, seconded by Dinah Landry, to obtain an agency card with the following stipulations: the card will be stored in a locked file cabinet, to board reviews and signs off monthly on expenditures, the board designates users of the card, the card will be an American Express card. The board members approved Denise Richard as the authorized user of the card.

Board members voted on a motion by Dinah Landry, seconded by Todd Morrison, the cancel the idea of board reimbursements for now and for the future.

On a motion by Gwen Constance, seconded by Todd Morrison, the board agreed to meet a minimum of 4 times a year. On a monthly basis the director must provide to the board, a director's report, a financial report and a credit card statement. All members were in agreement.

On a motion by Dinah Landry, seconded by Todd Morrison, the evacuation agreement with the Cameron Council on Aging was signed.

Director Tom Javins discussed bio-terrorism and measures taken by the state of Louisiana to prepare for the possibilities.

On a motion by Todd Morrison seconded by Gwen Constance the board approved the parish write offs for the past two months.

On a motion by Gwen Constance, seconded by Todd Morrison, the board meeting was adjourned. The next meeting is scheduled for July 15 at 6:30 p.m. in Hackberry.

Approved: /s/ Glenn Trahan, President.

Submitted by: /s/ Dinah Landry, Secretary.

NTU-(Nephelometric Turbidity Unit) - nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

V&E-(Variances & Exemptions) - State or EPA permission not to meet an MCL or a treatment technique under certain conditions.

TT-(Treatment Technique) - a treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

MCL-(Maximum Contaminant Level) - the "Maximum Allowed" MCL is the highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the MCLG's as feasible using the best available treatment technology.

MCLG-(Maximum Contaminant Level Goal) - The "Goal" is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

MRDL-(Maximum Residual Disinfectant Level) - the highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

MRDLG-(Maximum Residual Disinfectant Level Goal)-the level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLG's do not reflect the benefits of the use of disinfectants to control microbial contamination.

In the table below, we have shown the regulated contaminants that were detected at levels BELOW their maximum contaminant level. These samples, except for Lead and Copper results and surface water systems, were collected at the raw water source and represent water before any treatment, blending or distribution. As such, the consumer tap levels could be less. The last chemical sampling of our source water was collected on 9/29/2000. Chemical Sampling of our drinking water may not be required on an annual basis, therefore, information provided in this table refers back to

**Got 3-A-Day?**

"Eating three a day of dairy - milk, cheese and yogurt - is a deliciously easy way to build strong bones and better bodies," says Regan Jones, registered dietitian with the Southeast Dairy Association. Jones offered these tips for getting three servings in each day:

Eat your favorite flavors of ice-cold milk, snackable cheese and portable yogurt for stronger bones and better bodies.

Take a 3 p.m. break each day. 3 o'clock is a great time to tally your servings of dairy foods and see if you've fallen short. If you have, take a dairy break and enjoy a delicious, flavored milk, drinkable yogurt or cheese and fruit.

The latest year of chemical sampling results.

Contaminant, date, code, level, MCL, MCLG, Unit, Major sources in drinking water, health effects language;

Lead, 9/26/2000, 1030, 1, AL=15, 0, ppb, corrosion of household plumbing systems; erosion of natural deposits, infants and children who drink water containing lead in excess of the action level could experience delays in their physical or mental development. Children could show slight deficits in attention span and learning abilities. Adults who drink this water;

Copper, 9/27/2000, 1022, 0.3, AL=1.3, 1.3, ppm, corrosion of household plumbing systems; erosion of natural deposit; leaching from wood preservatives, Copper is an essential nutrient, but some people who drink water containing copper in excess of the action level over a relatively short amount of time could experience gastrointestinal distress. Some people who drink water containing copper in excess of;

Turbidity, 4/17/2000, 0100, 0.15, , NTU, soil runoff, Turbidity has no health effects. However, turbidity can interfere with disinfection and provide a medium for microbial growth. Turbidity may indicate the presence of disease-causing organisms. These organisms include bacteria, viruses, and parasites th;

Fluoride, 4/17/2000, 1025, 0.2, 4, 4, ppm, Erosion of natural deposits; Water additives which promotes strong teeth; Discharge from fertilizer and; Some people who drink water containing fluoride in excess of the MCL over many years could get bone disease, including pain and tenderness of the bones. Fluoride in drinking water at half the MCL or more may cause mottling of children's teeth, usually i.

Environmental Protection Agency Required Health Effects Language.  
Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk for infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Thank you for allowing us to continue providing your family with clean, quality drinking water this year. In order to maintain a safe and dependable water supply we sometimes need to make improvements that will benefit all of our customers.

Please call our office at 337-762-3935 if you have any questions.

We, at the CAMERON PAR WW DISTRICT NO 2 water system work around the clock to provide top quality drinking water to every tap. We ask that all our customers help us protect and conserve our water sources, which are the heart of our community, our way of life and our children's future.  
RUN: June 5 (J-16)

**LEGAL NOTICE**

This is to advise that the Cameron Parish Police Jury meeting in regular session convened on the 2nd day of June 2003 accepted as substantially complete and satisfactory the work performed under Project Number 2002-07: Cameron Parish Library Improvements at Hackberry and Johnson Bayou pursuant to the certain contract between Ribbeck Construction, Inc. and said Cameron Parish Police Jury under File No. 279154, in the Book of Mortgages, Cameron Parish, Louisiana.  
NOTICE IS HEREBY GIVEN that any person or persons having claims arising out of the furnishing of labor, supplies, material, etc., in the construction of the said work should file said claim with the Clerk of Court of Cameron Parish, Louisiana, on or before forty-five (45) days after the first publication hereof, all in the manner and form as prescribed by law. After the elapse of said time, the Cameron Parish Police Jury will pay all sums due in the absence of any such claims or liens.  
BY: Bonnie Conner, Secretary  
RUN: June 5, 12, 19, 26; July 3, 10, 17 (J-19)

**SOUTH CAMERON** High School Junior Class officers this year were: (standing, from left) Jacob Johnson, president; Santana Conner, vice president; Lyndi LeBouef, secretary; Amanda Venable, treasurer; Joby Richard, reporter; (seated) John P. Trosclair, Kaylee Canik, Karisha Fountain, and Raphiel Heard, all student council representatives.

## Memorial books given to G. Lake

The Grand Lake School Library received many memorial books this year, according to Sharon Constance, librarian. The following is a partial list of the books, the donor, and the person in whose memory the book was given:

Forgotten Heroes, Lena Guidry, Terrell Woosley, Jr.; Heidi, Chelsea O'Connell; Whitetail Hunting, Lena Guidry, Perrin Arceaux; Inshore Salt Water Fishing, Grand Lake Faculty and Staff, Earl Gaspard; The Art of Freshwater Fishing, David and Elva Duhon and Family, Earl Gaspard; Cattle, Margaret and Floyd Saltzman, Mervin Chesson; How to Draw Pets, Sweetlake Homemaker's, Robert Tolbert; Fishing: Have Fun, Be Smart, Cleo Duhon, Clyde Duhon.

Farming, Cleo Duhon, Dupre Guidry; Navy Dolphins, Cleo Duhon, Nathan Demarest; Farming, Krewe de Deaux Lac, Mervin Chesson;

Hunting, Krew de Deaux Lac, Robert Tolbert; Life World War II, Dorothy Ann Broussard, Lynn & Bonnie Berry, E. E. Kuhlman; Farming, Life on a Cattle Farm, Deer Hunting, Floyd and Margaret Saltzman, Mervin Chesson;

Rodeo Roping, Welcome to the Rodeo, Jimmy Paul and Penny K. Saltzman, Mervin Chesson; Treasure Island, Lena Guidry, Robert Tolbert; Countries Fly Flags, Lena Guidry, Earl Gaspard;

Princess Chamomile Gets Her Way, Dorothy Broussard, Adam Duhon; The Owl and the Pussy Cat, Dorothy Broussard, Adam Duhon.

"The Grand Lake School library welcomes all memorial books or funds to buy books," Mrs. Constance said. "This is one way you can have a part in educating the next generation right while remembering your friend or loved one."

**SHOWN ABOVE IS** MELISSA Nunez and her Grand Champion Breeding Doe at the recent Louisiana Meat Goat Association Show in DeRidder. Melissa's goat is called Jessie from Tri Boer Goats of Grand Lake. Melissa won a rosette ribbon, a trophy, and a monogrammed folding chair.

## Regatta set

The Big Lake Regatta will be hosted by Lake Charles Yacht Club on Saturday, June 7 at Davis Heberts Marina on Big Lake. Registration is \$25 and includes 1 barbecue sandwich dinner.

Skippers meeting 12:30; First Race 1:30; 2 races to follow.

Awards will be presented at 6 p.m. at the marina.

This regatta is open to all sailors, however there is not an area for launching beach boats. Keel boats will have to anchor out and dinghy in for skippers meeting and awards.

Anticipated classes are Stiletto 27, PHRF, Portsmouth, Multihulls, Flying Scot and Sunfish. A free water taxi boat will be provided for ferrying sailors in and out. Free launch is available to regatta boats at Davis Heberts.

The race course can be viewed from anywhere on Big Lake and boaters are asked to respect the right of way of racing sailboats when on the water.

Call Commodore Sheron Faulk at Ship to Shore at 474-0730 for more information.

## Grand Lake Jr. 4-H

By **JORDAN POOLE**

The Grand Lake Junior 4-H recently held their monthly meeting. Awards were given to students for their achievements during the 2002-2003 school year.

Record book winners were: Tasha Fontenot, Amber Trahan, Kirstyn Vincent, Christopher Watson, Megan Poole, Jordan Poole, Lacey Broussard, and LaRayne Picou.

Several students were

winners of the High Point Award. They were Amber Trahan, Megan Poole, Kirstyn Vincent, and Tasha Fontenot.

Three student were recipients of the Reuben Bryan Morales Memorial Small Animal Livestock Award. They were Christopher Watson, Jordan Poole, and Megan Poole.

Those receiving awards for placing Achievement Day were Jordan Poole, Megan Poole, Chris Watson, Bryce

Manuel, Renn Savoie, and Amber Trahan.

The Grand Lake 4-H recently sponsored a rabbit show at Burton Coliseum. Grand Lake 4-H students that placed at the show were Jordan Poole and Megan Poole. Also placing at the show from Grand Lake was Payton Atwell. She is the 4 year old daughter of Mrs. Cypi Atwell, 4-H sponsor.

New officers for the upcoming year: President, LaRayne Picou; Vice-President, Tasha Fontenot; Reporter, Jordan Poole; Secretary, Megan Poole;

Treasurer, Christopher Watson; Parliamentarian, Amber Trahan; CRD, Kirstyn Vincent.

The Grand Lake Jr. 4-H club is in need of a new sponsor for the 2003-2004 school year. Please contact the Cameron Parish 4-H office if you are interested in filling this position.
