THREE STEPS FORWARD

School started with much excitement. With the temporary buildings in place, the promise of the gym being ready soon, and the possibility of the school finished by Christmas things could only get better and better.

The forward progress was soon to be halted by a series of disheartening events. The Rebels began practicing at the pavilion where the summer heat challenged even the most dedicated athletes. Coach Hebert, as a favor to Mr. Reynolds, offered to coach the girls. A couple of weeks after school began the overwhelming heat soon lead Coach Hebert to resign.

The last week of August, with the constant struggle to keep the rebuilding progress moving, finding sufficient staff, along with health issues found Mr. Reynolds having to make one of the most difficult decisions of his educational career. He announced to the staff and student body that he would be leaving. It was a difficult decision but we all understood. We were now left without a principal and a girls' coach. It soon began to feel as if we were stepping backwards.

Mrs. Brenda, as usual, worked diligently to keep things focused on education and was a positive example to all of us.

After two weeks, Mr. Pete Picou filled the position of principal and a search for a new coach began. Just one week later, we were all devastated by the sudden loss of our dear Mrs. Margaret.

With so many changes in our once positive beginning we found ourselves wondering what else could go wrong. As time passed we realized that if the year was to be a success we would have to depend upon what had gotten us through the previous year, our "Rebel" spirit, that part of us that has always helped us to endure the trials that a small school and community experiences.

Depending on each other had always been a key factor and it would prove to be an even greater one now.

As time went on we settled into our buildings and began to focus on the year. Coach Lee offered to coach the Lady Rebels and Rebels and practices continued at the pavilion. As the fall season rolled in so did the rains. We continued to wait for covers to protect us as we went from classroom to classroom. Once again we had to endure the waiting process as it took a very long time for the covers to be completed.

By November it was becoming apparent that the promise of having our gym ready for basketball season was not to be. The hope of walking the halls of "ole JB during this school year was also beginning to fade. Still everyone kept moving forward no matter how many "temporary" backward steps we took. After Thanksgiving our science teacher left and once again we were stopped temporarily but were determined to keep one foot in front of the other.

The Christmas season brought uplifting spirits as the high school students were treated to a trip to Houston and elementary students were given a jolly Christmas party sponsored by Cheniere. January brought much excitement as we celebrated the dedication of our new gym. District games were played and Rebel fans once again cheered from the stands.

The rest of the year ran smoothly and events like prom, banquet, and graduation were celebrated in traditional Rebel fashion. Although we would not see the opening of the remainder of the school we finally began to see the light at the end of the tunnel and knew that we were only footsteps away from arriving at our final destination.
